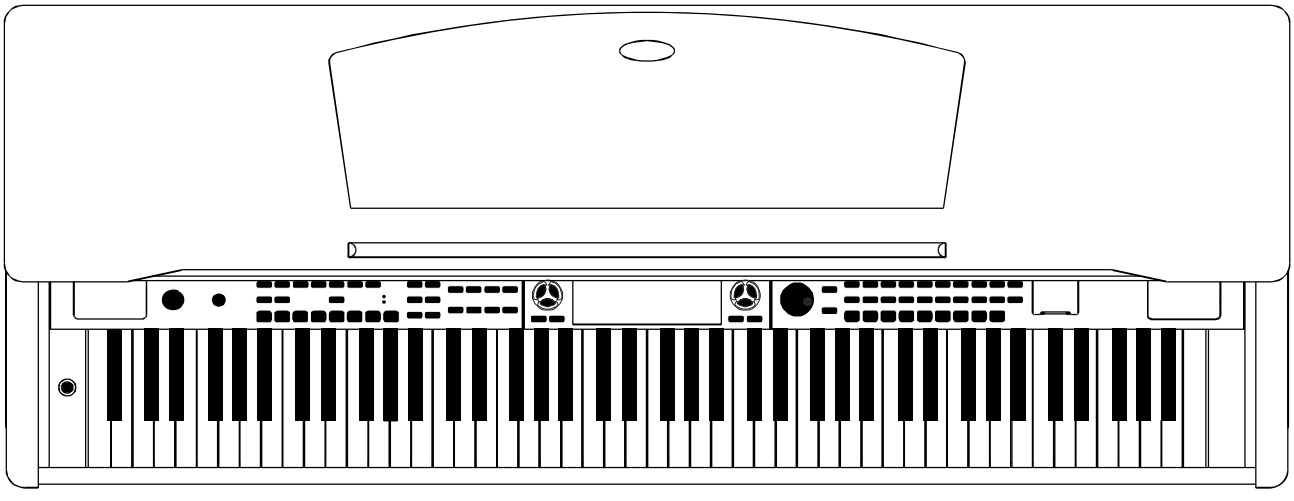
User's Manual

DIGITAL PIANO



Using the Instruction Manual

Congratulations on your purchase of this digital piano!
The piano is an user friendly piano with fabulous sound quality and advance feature such as style record and self-learning. No matter you are adult or children, you will enjoy playing the piano as it provides amazing styles for accompaniment, expressive tones, and real time record. Other features such as numbered musical notation display chord dictionary, variety of songs will help you better master the playing skill.

You are recommended to study this manual carefully before using the unit.

Inside This Package

Please make sure the package completely contains the following:

- **The Instrument (included power cable)**
- **Left support panel**
- **Right support panel**
- **Pedal group(included pedal cable)**
- **Rear panel**
- **A bag of Screws**
- **Warranty Certificate**
- **Instruction Manual**

Precautions

Please read the following carefully before use:

- Do not expose the piano to high temperature, direct sunlight and excessive dusty places.
- Do not place the piano too close to other electrical appliances such as television and radio as. It may cause interference.
- Do not place the piano to excessive humid area. Avoid putting container with liquid on top of the piano in order to prevent damage of the internal parts of the piano by flowing liquid.
- Always unplug AC cord by gripping the plug firmly, but not pulling on the cable.
- Do not apply excessive force to the switches and buttons.
- When the piano is not in use or in the time of thunderstorm, please disconnect the power supply.
- Avoid adjusting the volume level to the maximum or to the levels that you feel uncomfortable, we recommend you to limit the volume level to two-third of the max for preventing the damage of audiory sense
- Unplug the power cable before cleaning the piano. Do not connect or disconnect the power cable with a wet hand.
- Check and clean the power plug periodically.
- To avoid damage to the piano and other devices to which it is connected, turn the power switches of all related device off prior to connecting or disconnecting cables.
- Clean the piano and remove the dust with a dry soft cloth or a slightly damp cloth.
- Never use cleaners such as thinner or alcohol. To prevent any damage on the surface of the LED display, please use lens cleaning tissue to clean the display.
- If the piano cable is damaged, please do not use the piano. Otherwise it may cause fire or electrical hazard.
- In case of malfunction due to improper handling the piano, please switch off and on again after 30 seconds.
- Do not attempt to disassemble or repair the piano. If the piano does not work properly, please contact the approved repairer.
- The piano should not be exposed to dripping or splashing.

Main Feature

- Keyboard: 88 hammer action key.
- Operation: use **DIAL** & **[+/YES]** & **[-/NO]** button or direct select button to select desired menu & parameters .
- Voice: 559 voices in total, 28 voices can be selected conveniently from the panel.
- Style: 203 styles in total, including 3 user styles, 16 voices can be selected conveniently from the panel.
- Song: 100 songs in total, each one has self-learning mode.
- Demo: 2 demos in total.
- Chord mode: fingered & full range.
- Song learning: three learning mode of lesson 1/2/3, left and right hand to choose, and offers the GRADE function.
- Chord dictionary: A function for you to learn the chords, including Dirct 1 mode (dictionary mode) and Dirct 2 (test mode).
- Record: 3 user songs, each one includes 1 accomp track & 5 melody tracks.
- Style record: 3 user styles, each one includes 8 paragraphs, each paragraph include 8 tracks.
- SD card: Portable storage device to save & load the user songs,user styles and memory datas.
- Memory: 48 memories in total (8 banks with 6 memories each).
- Style control: sync start, sync stop, start/stop, fill in a/normal, fill in b/variation, intro/ending, fade in/out, chord mode
- Function: tuning, beat, split point, pedal select, reverb level, chorus level, midi in, midi out.
- Mixer: Rhythm_s，rhythm_m，bass，chord 1，chord 2，chord 3，phrase 1，phrase 2，voice r1，voice r2，voice l，SD play.
- Others: dual, split, dsp, piano, metronome, o.t.s., transpose +/-, accomp +/-, touch etc.
- Pedal: sustain pedal (immovable);sostenuto pedal (immovable); Multifunctional pedal (soft、start/stop、memory select)
- Interface: midi in/out, usb, phone
- Irradiance keys: style control（sync start，sync stop , fill in a/normal，fill in b/variation，intro/ending，fade）、style record、record、play/stop、accomp、melody 1～melody 5,style,voice,song。

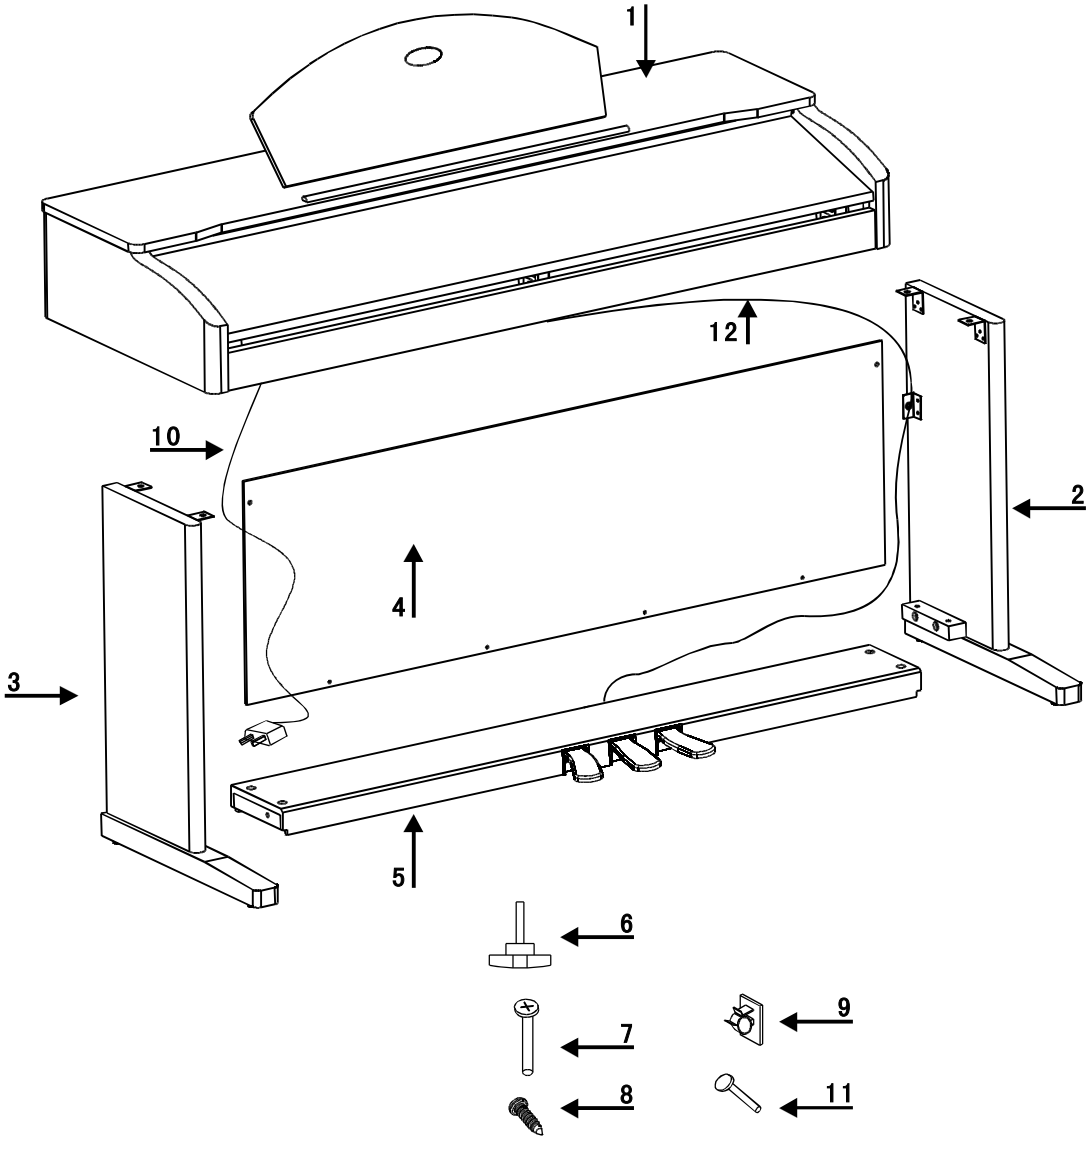
Set-up Guide

Before proceeding to assemble the stand, get a Philips screwdriver(not supplied).
Make sure you have the following parts, which are supplied into package.

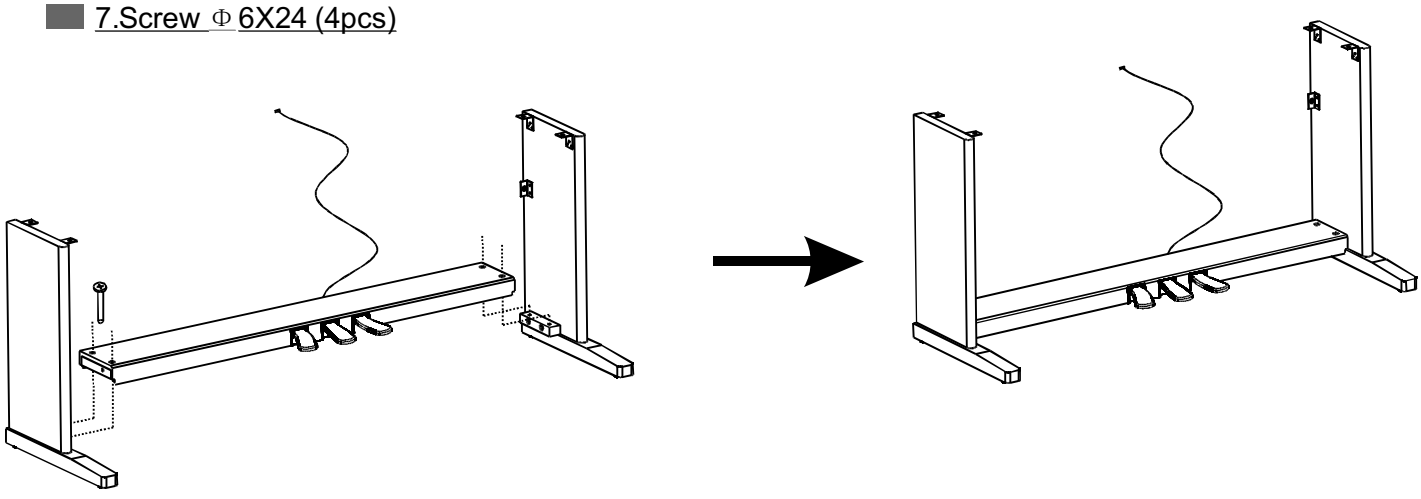
1. Piano cabinet
2. Right leg
3. Left leg
4. Rear panel
5. Pedal box
6. Hand screw (4pcs)
7. Screw Φ6x24 (4pcs)
8. Screw Φ4x15 (5pcs)
9. Adhesive champ (2pcs)
10. Power cable
11. Screw Φ 6x12 (2pcs)
12. Pedal cable



Set-up Guide

A Fix and well tighten the left leg and right leg to the pedal box with screws.

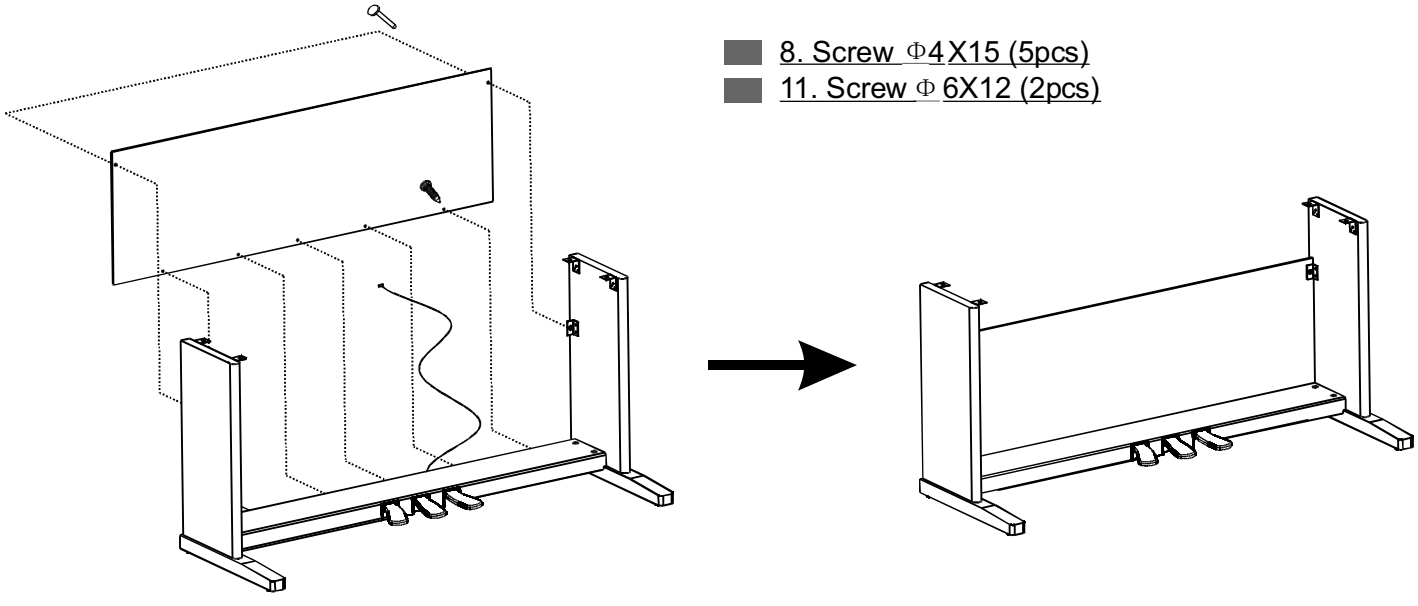
7.Screw Φ6X24 (4pcs)



NOTE:
Please use only the specified screws that are supplied with the piano.

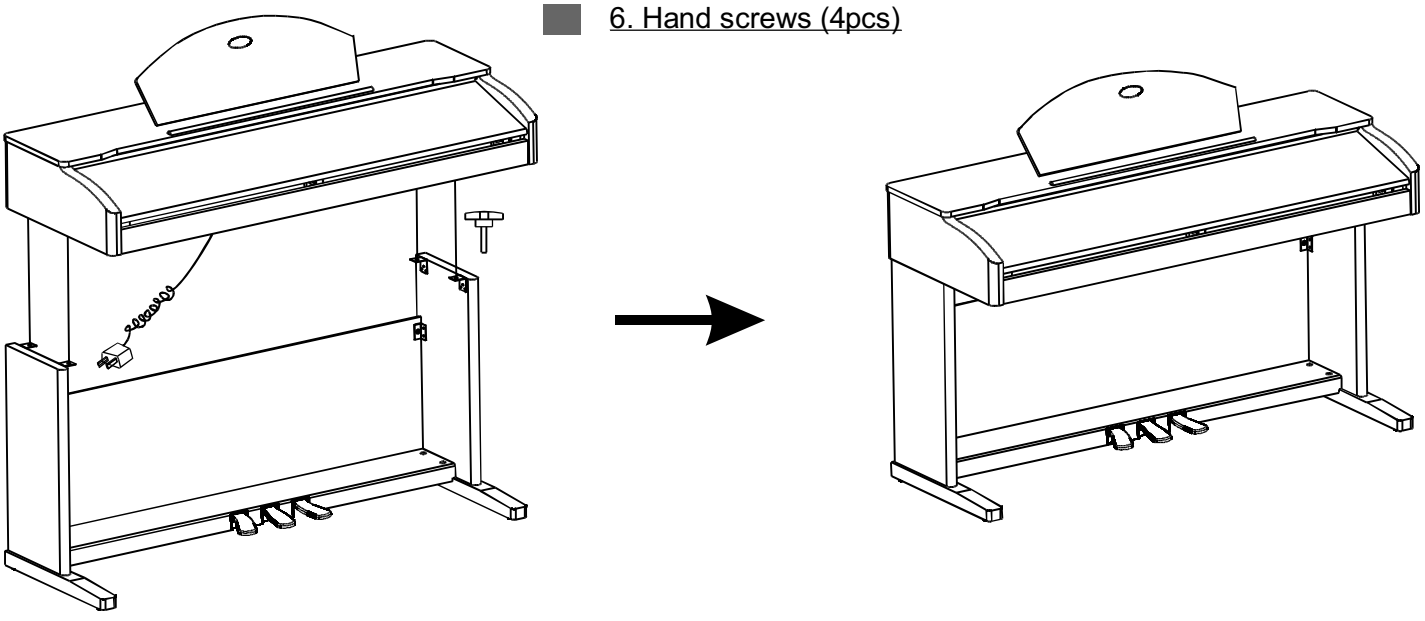
B Fix the rear panel to the pedal box with 5 screws and to the legs with 2 screws.

8. Screw Φ4X15 (5pcs)
11. Screw Φ6X12 (2pcs)



C Place the piano cabinet on the stand, fix it using 4 screws.

6. Hand screws (4pcs)



D Attach 2 adhesive clamps on the stand and cabinet.
Insert the DIN plug of pedals cable into the proper socket of cabinet.
Fix the cable with the adhesive clamp.
Place the piano in its final location and adjust on floor the pedal clog under pedals group.

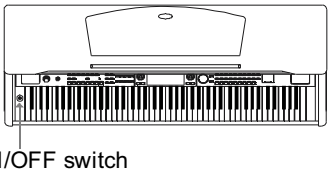
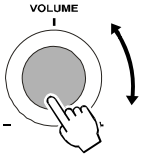
Connections

Power Supply

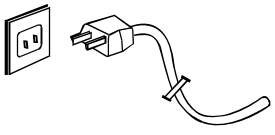
1. Ensure the piano is turned off when connecting and disconnectiong the power.



2. Turn the volume switch anti-clockwise to reach the minimum volume level.



3. Plug the power cable into an AC power outlet.



4. If you have done the above procedures, you are now safe to turn on the piano.

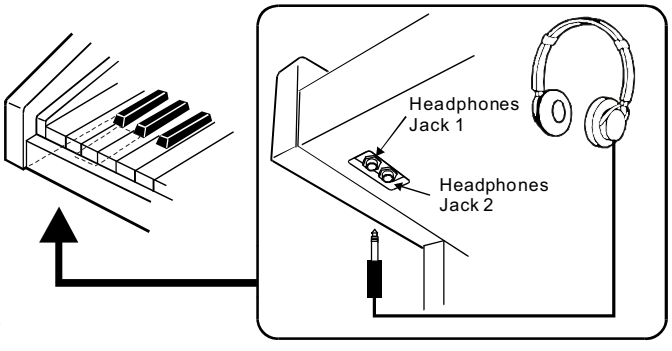
NOTE:
When the piano is not in use or during a thunderstorm, disconnect the power for safety sake.

Using Headphones

There are two headphone jacks on the left underneath the piano body.

1. When an optional set of stereo headphones is connected with the headphones jack 2, the sound from speakers will switch off automatically resulting in only sound from headphone to be heard.

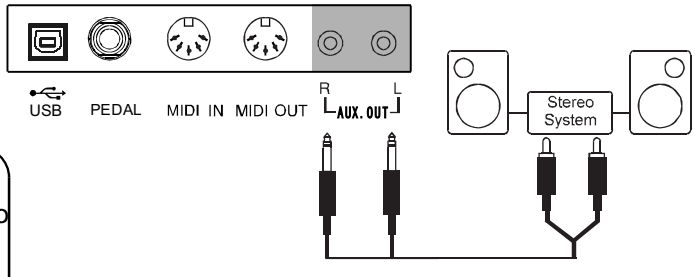
2. When jack 1 is connected with stereo headphones, the sound can be heard from both headphones and speakers of the piano.



NOTE:
Never use headphones with high volume, as it may damage your sense of hearing.
To prevent damaging the speakers, ensure that the volume is set to the minimum level before connecting the power and other devices.

Using the AUX.OUT Jack

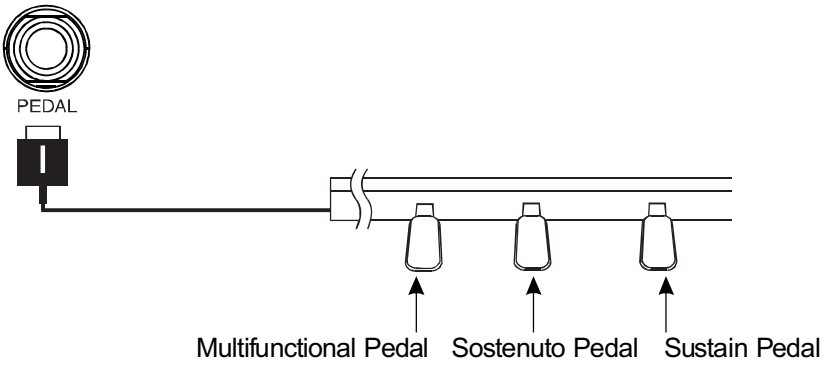
Connect the rear-panel AUX.OUT jack to amplified speakers, amplifiers or domestic hi-fi-units for external amplification.



NOTE:
Connect both left(L) and right(R) channels for the stereo result.
If you only connect either one of the channels, the connected channel will only take effect.

Using the Foot Pedal

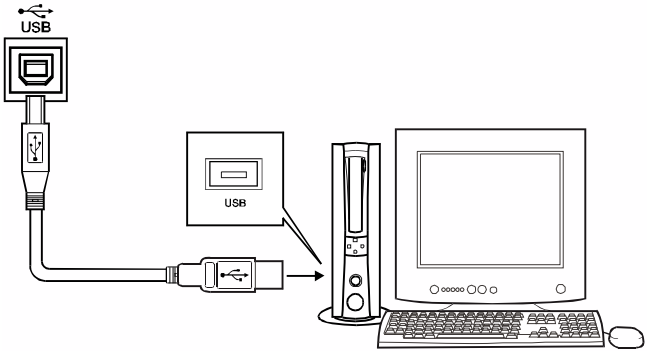
Connect the plug of the foot pedal unit to the pedal jack on the rear panel.
You will experience the sustain effect,sostenuto effect and soft effect.



USB Jack

Connect PC or other USB host devices that support USB Audio.

You can simply connect the MIDI/USB converter to your USB play on your computer and plug the MIDI in and out cables into the piano, after the driver is installed and initialization is finished, you can choose USB Audio Device in the device menu of the software to transfer midi data.

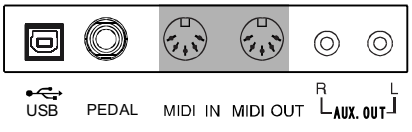


MIDI IN/OUT Jack

MIDI stand for Musical Instrument Digital Interface.

MIDI is a world wide standard that makes it possible for various electronic musical instruments and other devices.

MIDI IN:
Data transmitted from other MIDI instrument via MIDI is received by this terminal.
MIDI OUT:
Data produced by the Digital Piano is transmitted to other MIDI instruments via MIDI from this terminal.



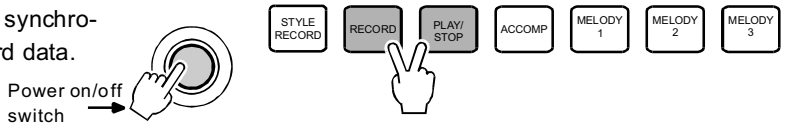
⚠ WARNING

To avoid damages, please be sure to turn off the power switches before you disconnect the related devices from the piano.

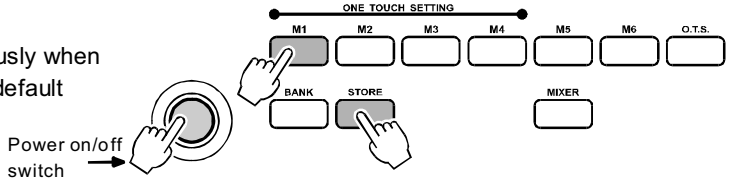
Preparation

Power on key combination

1. Press the **[RECORD]** & the **[PLAY/STOP]** button synchronously when it is power on，It can clear the record data.



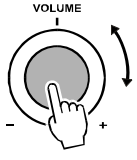
2. Press the **[STORE]** & the **[M1]** button synchronously when it is power on，It can set all the memory data to default value.



3. Press the **[+/YES]** & the **[-/NO]** button synchronously when it is power on, it can reset all the setting to the default value (Including Memory data, Record data, Style Record data.)

Master volume control

Rotate the **[VOLUME]** knob clockwise, the volume increases.
Rotate it anti-clockwise, the volume decreases.



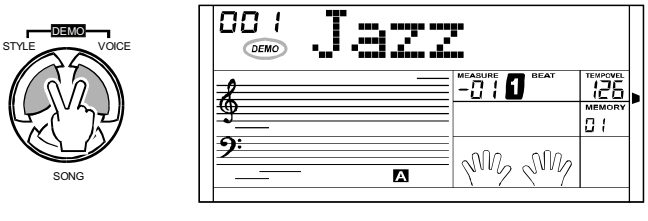
Brilliance

To create brighter sound, rotate **[BRILLIANCE]** knob clockwise
To create gloomy sound, rotate **[BRILLIANCE]** knob anti-clockwise
You can change the piano brilliance as your wish.

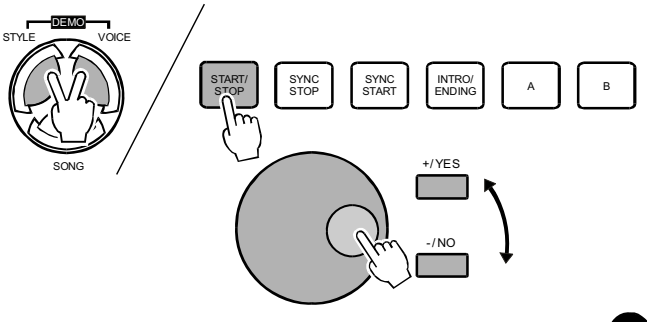
Demo

There are total of 2 Demos.

1. Press the **[STYLE]** & the **[VOICE]** button synchronously to enter the demo mode, the DEMO flag on LCD is lightened. It displays the first demo and plays all demos circularly.



2. Press the **[STYLE]** & the **[VOICE]** button again or press the **[START/STOP]** button to stop playing and quit current mode.

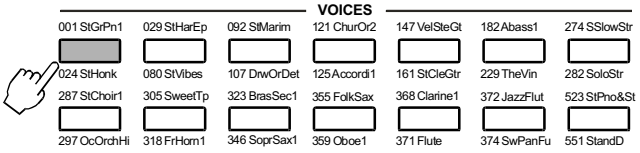


3. When playing, press the **[+/YES]** & the **[-/NO]** button or rotate the **DIAL** to select the song you want.

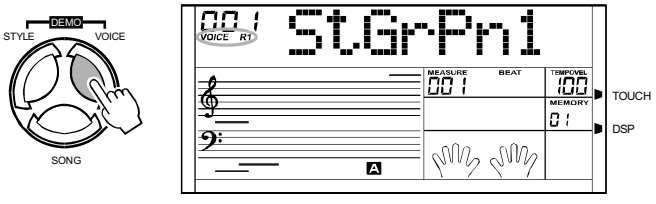
Voices and Effects

Voice select

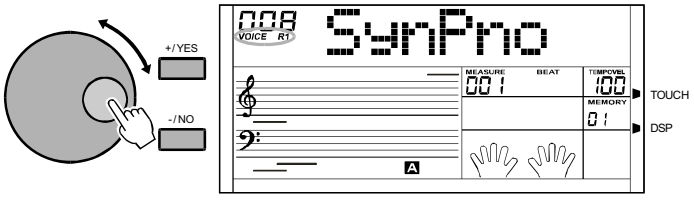
559 voices in total.



1. 28 voices can be directly selected. Each direct select button includes 2 different voices, the first press to select upper one, the second to lower one. The default is upper voice when it is power on.



2. When it is power on, LCD lightens the "VOICE R1" flag and displays the 001 voice name.



3. Press the voice direct select button, or use the **[+/YES], [-/NO]** button and **DIAL** to select the others.

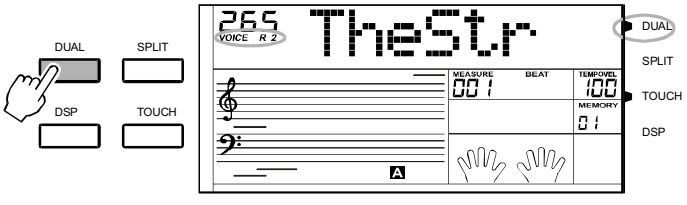
NOTE

- When the state changes to the VOICE by pressing the **[VOICE]** button for the first time, LCD displays the VOICE R1 state. Press it again and later, LCD will switch and display the other voice modes being opened in turn, the order is: VOICE R1->VOICE R2->VOICE L->VOICE R1.

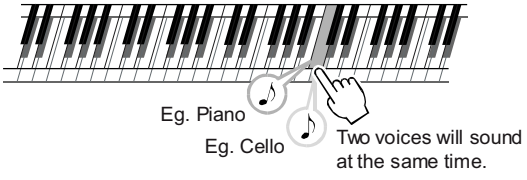
Dual voice

You can play two sounds at the same time on the piano in Dual Voice mode. When the dual function is off, the voice indicated is VOICE R1. When the dual function is on, the voice indicated is VOICE R2.

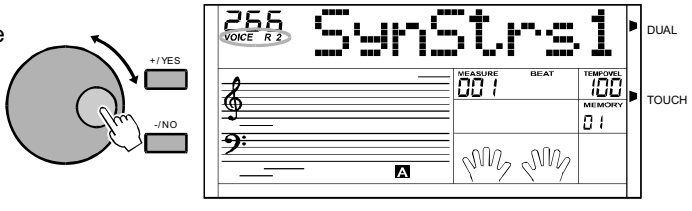
1. During the **VOICE R1** status, press **[DUAL]** button to enter the dual voice mode. "VOICE R2" and "DUAL" signal would be lightened simultaneously. The number of the dual voice will be displayed on the LCD. Now, you can get two different sounds at the same time when pressing one key.



2. Press **[+/YES]** / **[-/NO]** button, or rotate the DIAL to select your desired voice. The default DUAL VOICE number is "No:265 The Strings".



3. Press **[DUAL]** button again to turn off the DUAL VOICE. Voice R2 will be disabled, the note you play sounds a single voice of Voice R1.

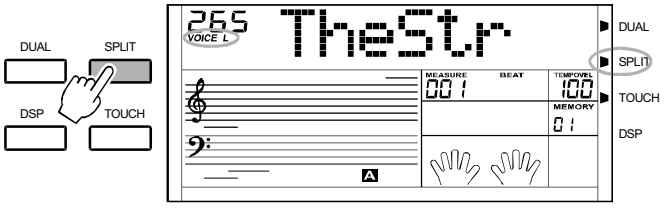


NOTE

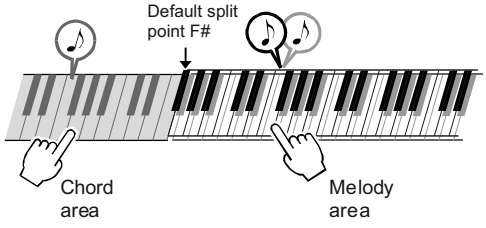
- While the keyboard is splited, only the right hand area will respond to the dual voice, the left hand area produces sounds in chords.

Split point

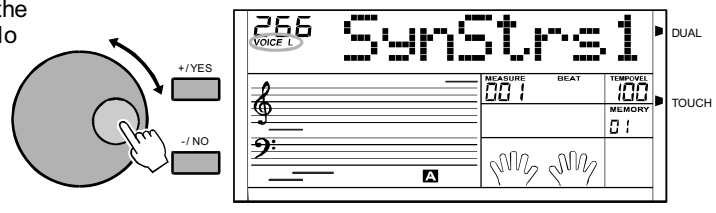
You can play two sounds on different parts of the keyboard. It is called Split mode.



1. Press **[SPLIT]** button to turn on the LOWER VOICE, LCD lights the SPLIT flag and displays "VOICE L" and its name. When you play in real time, you can activate Split Mode simply by pressing this button.



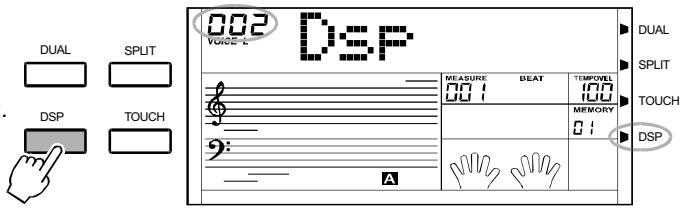
2. Press **[+/YES]** / **[-/NO]** button, or turn the DIAL to select the voice you want. The default LOWER VOICE number is "No 265 The Strings".



3. Press **[SPLIT]** button again to turn off the LOWER VOICE. LCD darkens its flag.

DSP Effect

DSP effect will enhances the piano with fuller and expressive sound.



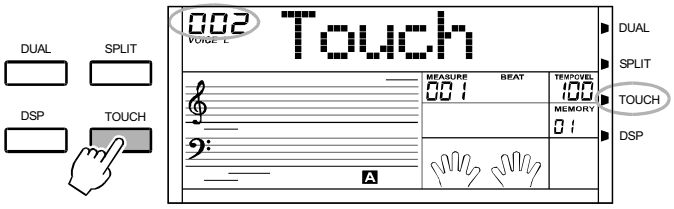
1. When power is on , LCD lightens the DSP flag. Press the **[DSP]** button to switch the DSP setting. 4 DSP setting are available for selection, DSP 1/2/3/off, the default setting is 2. The DSP effect will be closed after being set to OFF, the DSP flag goes out.

2. You can change the current setting by pressing the **[DSP]** button continuously, and by adjusting the REVERB and CHORUS level to change the current effect .
(See Function menu for detail)

Touch Response

This function allows you to activate the dynamic level when playing the keyboard.

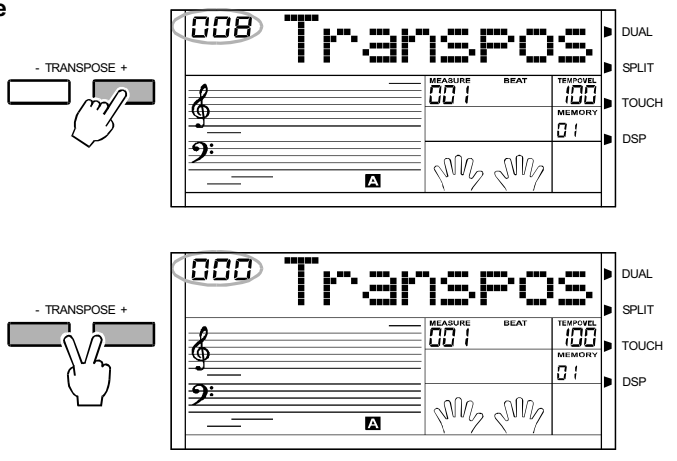
1. Press the **[TOUCH]** button, LCD lightens the "TOUCH" flag and displays touch response type "002 Touch" briefly.
2. 4 setting are available for selection, TOUCH 001/002/003/ OFF, the default is 002. You can change the current setting by pressing the **[TOUCH]** button.
3. If the type is set as "OFF", the "TOUCH" flag goes out, there is no touch response to piano.



Transpose

You can shift the pitch of the entire keyboard with the TRANSPOSE function by adjusting the pitch in semitone steps.

1. Press the **[TRANSPOSE +]** or **[TRANSPOSE -]** button for the first time to enter the Transpose setting mode, LCD displays current transpose value briefly.
2. Press them again and later, the value will increase or decrease by degrees, also you can use the **[+/YES]** and **[-/NO]** button or the **DIAL** to adjust it, ranging from -12 to +12 semitones, the default value is 000.
3. In TRANSPOSE setting, pressing the **[TRANSPOSE +]** and **[TRANSPOSE -]** button simultaneously will set the value to default.

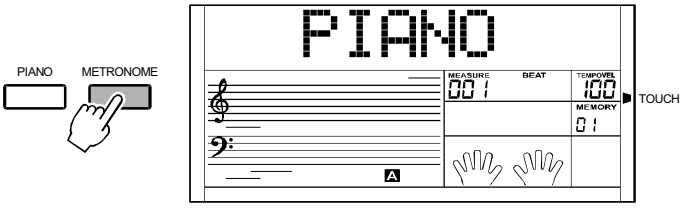


NOTE

- If you don't press any button for 5 seconds after entering the transpose setting mode, it will quit this menu automatically.

Piano

1. Press the **[PIANO]** button to enter the PIANO mode, the chord mode will be disabled automatically, the full range on the keyboard is piano voice.
2. Press the **[PIANO]** button again to exit the current mode. Press the **[VOICE] + [STYLE]** , **[SONG]** , **[VOICE]** and the direct select button, or the **[DUAL]**, **[SPLIT]**, **[M1]~[M6]** button, you can exit the piano mode.
3. You can select and play the style by pressing the **[STYLE]** and the direct select button, LCD will then display the style name. Accompaniment control will respond in effect as usual only with the drum tracks.

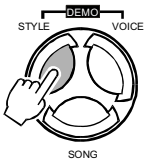


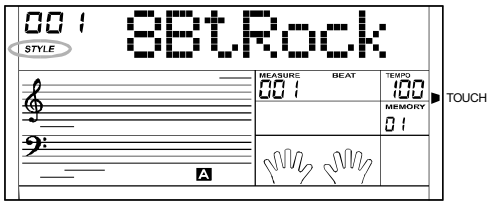
Style Control

The piano has a total of 203 styles, from 001 to 203, including 3 user styles. The default style is 001.

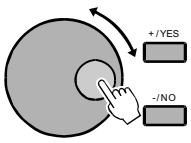
Select a Style

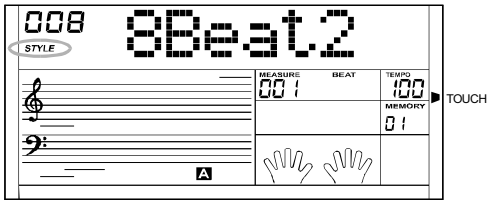
1 Press **[STYLE]** button to set the piano to the "style mode". The "STYLE " flag and the style number will show up on the display.





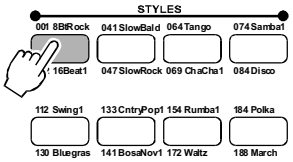
2 Press **[+/YES]** / **[-/NO]** button or use **DIAL** to select the style you want.





3 **Direct Select Button**

Use the Direct Select Button to select your desired style (16 styles), 2 direct styles for each button (upper & nether).



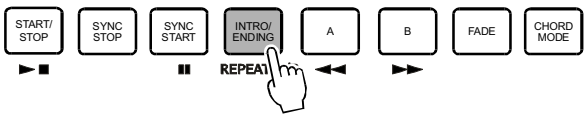
NOTE

- While changing a style, pay attention to the rules:
  If the same button has been pressed twice, the style will be swapped from one to another.
- When the upper/nether style is on, and you then press another direct button, the corresponding upper/nether style will be selected.

The Accompaniment Section

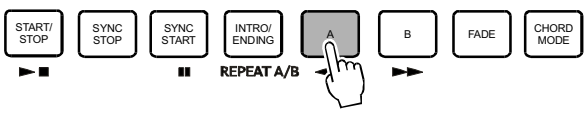
Accompaniment consists of Intro, normal, variation, fill (a-a, a-b, b-a, b-b), ending. Using different sections based on the structure of styles enables you to enhance musical performance.

1 **INTRO**
Press the [INTRO/END] button to insert an intro section before playing . The rhythm will begin with a 2-4 measure introduction which will be followed by a main section.

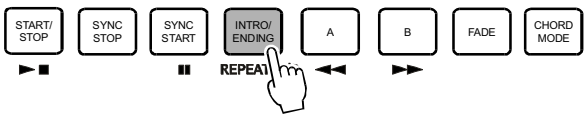


2 **NORMAL and VARIATION**
There are two main sections: normal and variation. Each section consists of 2 to 4 measures.

3 **FILL**
While the accompaniment is playing, you can fill in the rhythm/accompaniment by pressing the [FILL A] button or the [FILL B] button. This will automatically insert a fill section.

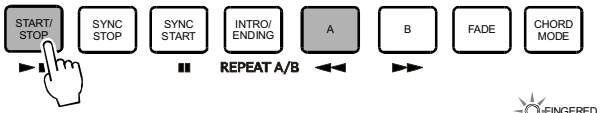


4 **ENDING**
When you press the [INTRO/END] button, in process of accompaniment playing,it brings the ending section appropriate for the accompaniment, and then stop the performance.

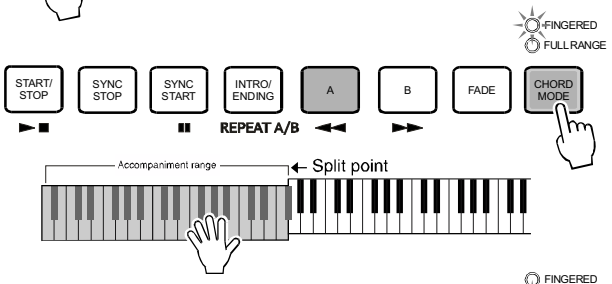


Start a Style

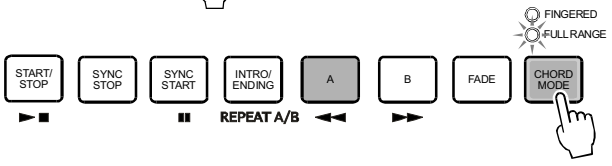
1 Start immediately:
Use **[START/STOP]** button to start the style.



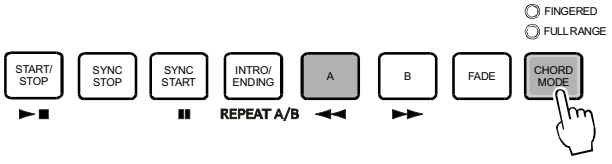
2 Chord. Mode:
Press the **[CHORD MODE]** button for the first time to enter the FINGERED mode, the relevant LED is lightened.
The left area of keyboard are known as the chord area, when playing the chord, both the bass and the chord voice phonate.



Press the **[CHORD MODE]** button for the second time to enter the FULL RANGE mode, the relevant LED is lightened.
The whole keyboard are known as the chord area, but only to detect the chord and make the current voice of keyboard while style playing.

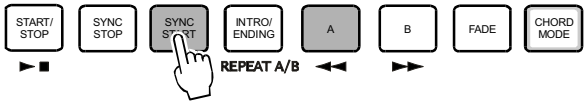


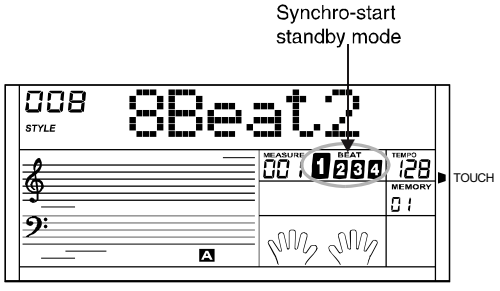
Press the **[CHORD MODE]** button for the third time to close the chord mode.



There are 2 ways to detect the chord: single finger detect and fingers detect. If the chord playing accord with fingers detect, it is recognized as the fingers chord. If not, single finger chord will be recognized.

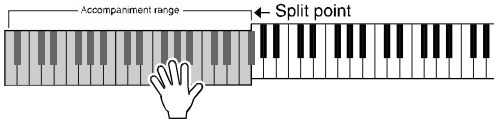
3 Sync Start:
Press the **[SYNC START]** button, The SYNC START LED lightens, LCD flashes 4 beats with current tempo. Press the **[INTRO/ENDING]** button to insert INTRO. In this mode, playing the keyboard will start the style automatically.



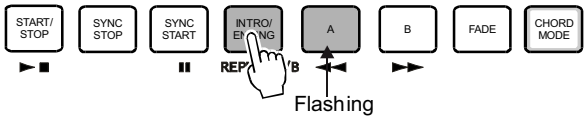


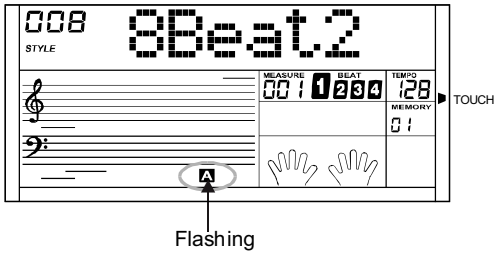
NOTE

- If chord mode is off, play any key on keyboard to start the style.
- If chord mode is on, only play the chord area key to start the style with the Auto Bass Chord accompaniment.

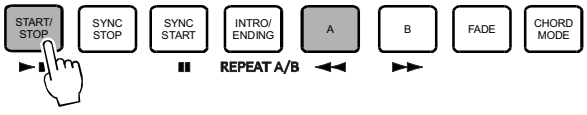


4 Intro Start:
When style is not playing, press the **[INTRO/ENDING]** button, "A" or "B" flashes on LCD, indicates the intro section is ready to play. Length of intro varies in different style.





Press **[START/STOP]** button, then the style starts with an intro section , followed by the main section.



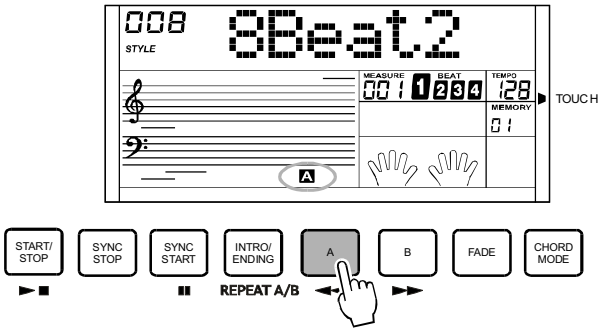
Fill A/B

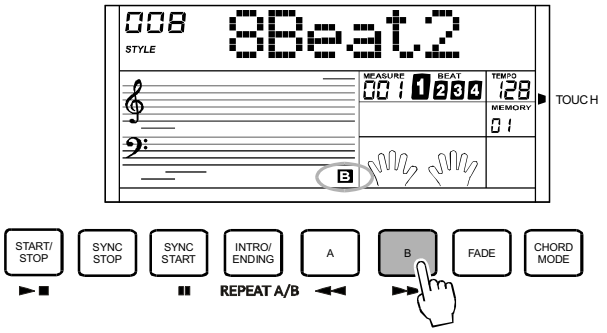
1. In NORMAL mode, press **[A]** button to insert 1 measure fill and LCD flashes 'A'. After one measure is over, NORMAL style will be returned.

2. In NORMAL mode, press **[B]** button to insert 1 measure fill and LCD flashes 'B'. After one measure is over, VARIATION mode will be started.

3. In VARIATION mode, press **[B]** button to insert 1 measure fill and LCD flashes 'B'. After one measure is over, VARIATION style will be returned.

4. In VARIATION mode, press **[A]** button to insert 1measure fill and LCD flashes 'A' . After one measure is over, NORMAL style will be started.



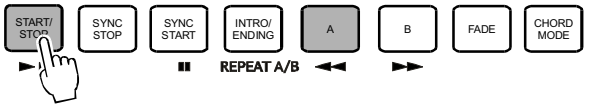


NOTE

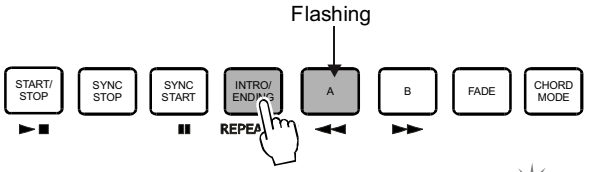
- Hold down the **[A]** / **[B]** button when the style is playing, the selected FILL pattern repeats continuously until button is released.
- Press **[A]** when style stop, it will change to the normal section, the flag "A" on LCD will be lightened;
- Press **[B]** when style stop, it will change to the variation section, the flag "B" on LCD will be lightened.

Stop a Style

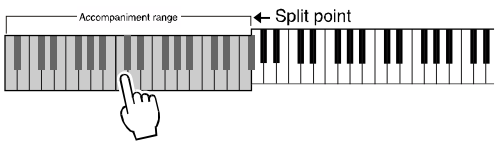
1. **Stop immediately:**
   The accompaniment can be stopped at any time by pressing the **[START/STOP]** button.

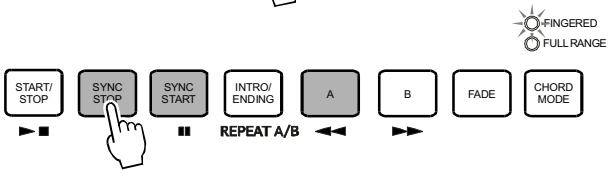


2. **Ending stop:**
   Press the **[INTRO/END]** button, the style will stop after the ENDING section over.

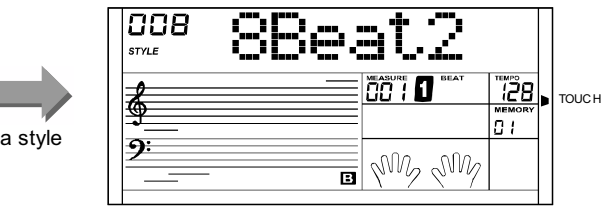


3. **Sync Stop:**
   When chord mode is on and style is not playing, press the **[SYNC STOP]** button, SYNC STOP and SYNC START LED is lightened. In this mode, press the any key in left area of keyboard to start the style playing and release the keyboard will stop it.

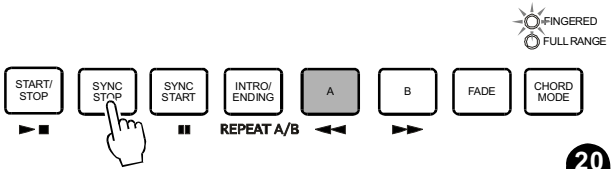




Play a style



When SYNC STOP LED is lightened and style is playing, press the **[SYNC STOP]** button, the SYNC STOP LED will be darken. In this mode, the style will playing continuously.



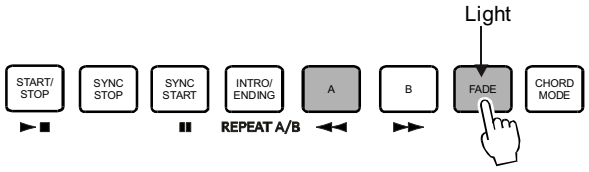
NOTE

- **[SYNC STOP]** would be enabled only when CHORD MODE indicator is on.

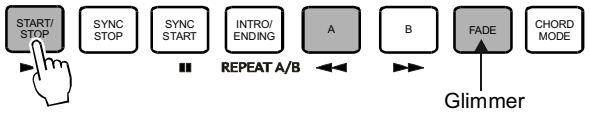
Fade

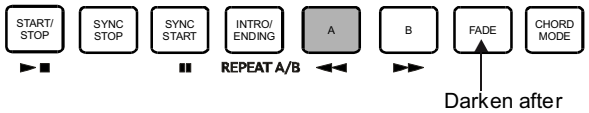
1 FADE IN:

Press the **[FADE]** button when style is not playing , "FADE" LED lights.

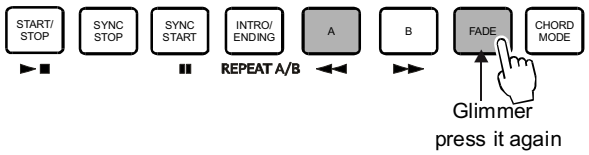


"FADE" LED glimmers after style begins to play, style volume will increase from 0 to maxima between 10 seconds, style is played normally subsequently, 'FADE' LED darkens.



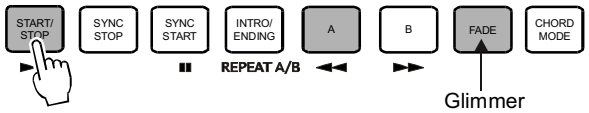


Press the **[FADE]** button again while FADE OUT state , "FADE" LED glimmers, style volume will be increased to maxima on the basis of present volume, style is played normally subsequently, 'FADE' LED darkens.

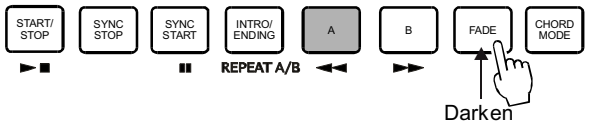


2 FADE OUT:

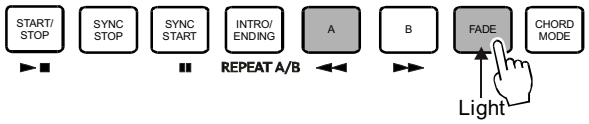
Press the **[FADE]** button when style is playing, "FADE" LED glimmers, style volume will decrease from maxima to 0 between 10 seconds, style stops.



Press **[FADE]** button while FADE IN state , will enter FADE OUT state, volume is decrease to 0 on the basis of present volume, style stop, 'FADE' lamp goes out.



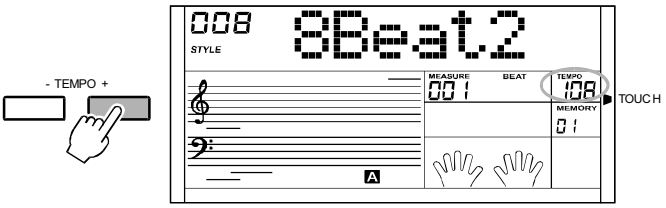
Press **[FADE]** button while FADE OUT state, will enter FADE IN state, volume increase to maxima on the basis of present volume, style is play normally subsequently, "FADE"lamp goes out.



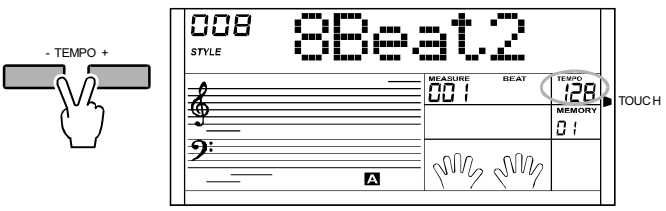
Keep FADE IN state not changing as FADE IN state stops STYLE.

Tempo

1. Use the **[TEMPO+]** or **[TEMPO-]** button and the **[+/YES]** or **[-/NO]** button and the **DIAL** to adjust the tempo from 30 to 280.



2. Press the **[TEMPO+]** and **[TEMPO-]** synchronously to set to the default tempo.

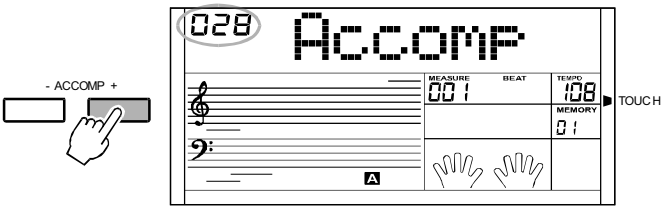


NOTE

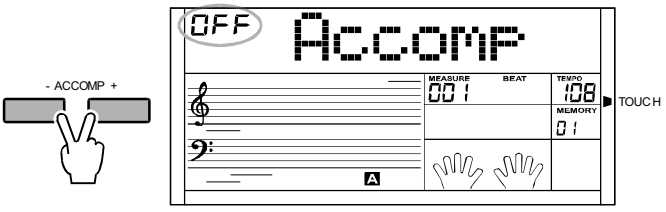
- Selecting the style when it stops, the tempo will change with the style automatically to the default one.
- When style is playing, the tempo will not change with the style you select.

Accomp Volume

1. Press **[ACCOMP +]** or **[ACCOMP -]** button to adjust volume of accompaniment in style playing. The LCD displays the ACCOMP volume which range between 0 and 31. Default Accomp Value is 28.



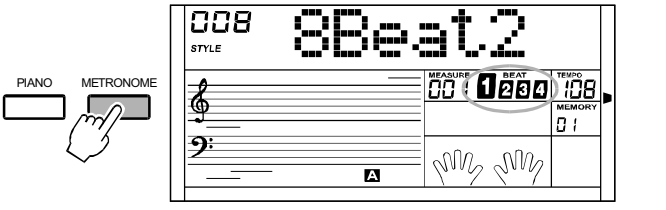
2. Press **[ACCOMP +]** and **[ACCOMP -]** button together to mute the ACCOMP track.



3. Press **[ACCOMP +]** and **[ACCOMP -]** button together again to turn on the ACCOMP volume.

Metronome

1. Press the **[METRONOME]** button to turn on the metronome （the beat type can be selected in the FUNCTION menu）.



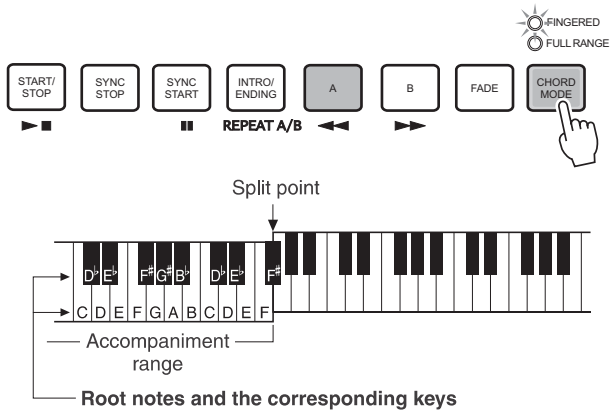
2. Press the **[METRONOME]** button again to turn off the metronome.

3. When the style stops to play, the beat type follows the selection in the function after turning on the metronome. When the style begins to play, the beat type follows the current style.

4. Metronome can be turned on together with the style. If the style plays at first, the metronome will respond next measure. Contrarily the metronome responds at once to the first beat of the style.

Recognizing Chords

Default mode for A.B.C. is off on the piano.
Press **[CHORD MODE]** button to turn on this "auto bass chord" function. The left section of the keyboard is known as the "chord area", while playing the chord, both the bass and the chord voices sound.



NOTE

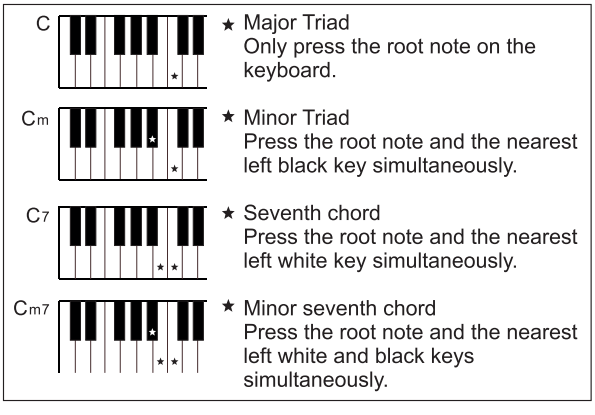
- Since the chord detection of A.B.C. is based on the Chord Root priority, some chords that could be played under the Chord Dictionary may not be recognised by A.B.C. , eg. B6、bB6、B6(9)、bB6（9）、Baug、bBaug、bBm6、Bm6、Adim7、bBdim7、Bdim.

There are 2 ways to detect the chord: "single finger detect" and "multi finger detect".

If the chord played is based on "multi finger detect", it is recognized as the "multi finger chords".
If not, "single finger chord" will be recognized.

• Single Finger

Single finger type not only can detect single finger but also can detect multi finger. And the single finger makes it easily to play chords through only one, two or three keys.
Including major, minor, seventh, and minor seventh chord.
Refer to relevant picture on the right for details.

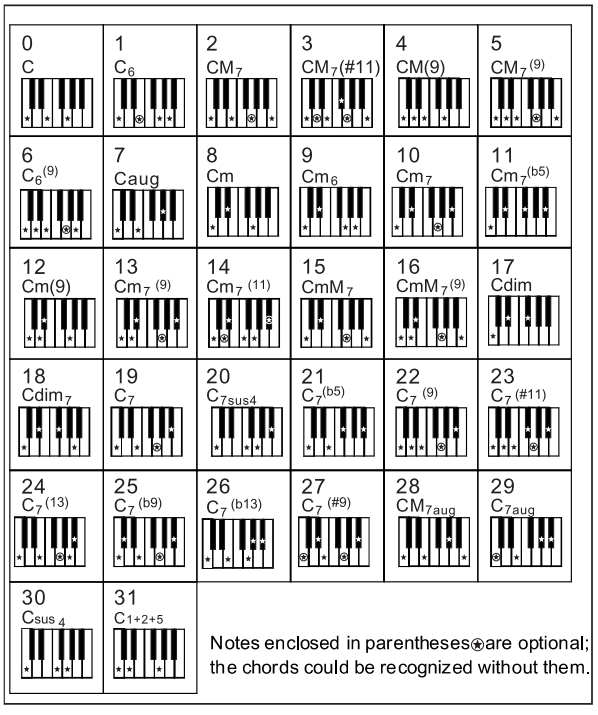


NOTE

- When A.B.C. is on, press the keys on the left of split point. The chord will be recognized as single finger chords.

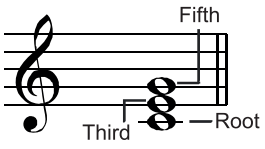
• Multi Finger

Multi finger type only can recognize those chords have listed in the chord list, and also can be found in the dictionary function.



Chord Basics

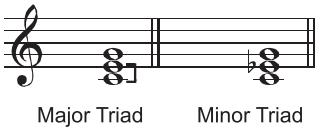
A chord, in music, is any harmonic set of three or more notes that is heard as if sounding simultaneously. The most frequently encountered chords are triads. A triad is a set of three notes that can be stacked in thirds. When stacked in thirds, the triad's members, from lowest pitched tone to highest, are called: the Root, the Third, and the Fifth.

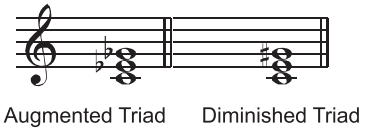


Triad Type

There are following basic triad types:

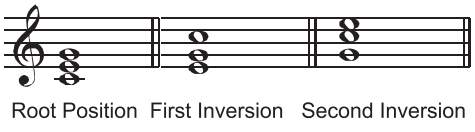
Major Triad	A root with a major third added above and a perfect Fifth will consist as a Major Triad.
Minor Triad	A root with a minor third added above and a perfect fifth will consist as a Minor Triad.
Augmented Triad	A root with a major third added above and an augmented fifth will consist as an Augmented Triad.
Diminished Triad	A root with a minor third added above and a diminished fifth will consist as a Diminished Triad.





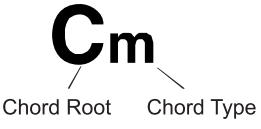
Chord Inversion

We define this chord its root is not in the bass (i.e., is not the lowest note) as an inversion chord. When the root is in the bass, we call the chord: root-position chord. If we put the Third and Fifth in the root position, then it forms Inversion, we call this chord Inversion Chord. See the following major triad and its inverted chord.



Chord Name

The chord name contains two parts content: Chord root and Chord type.



Function Menu

Press **[FUNCTION/NEXT]** or **[FUNCTION/BACK]** button to enter the menu of function. The default option of the menu is "TUNE". When you enter the menu next time, you will find the option is the same as last time. Press **[FUNCTION/NEXT]** or **[FUNCTION/BACK]** button to select the option to be set.
Use **[+/YES]** / **[-/NO]** or the DIAL to set the parameter. The option and the parameters are as the follows:

Option	LCD Display	Range	Default
TUNE	000Tune	-50—050	000
BEAT	004Beat	000，002—009	004

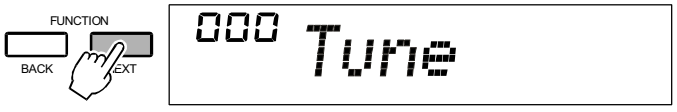
PEDAL SOFT	001 Ped Soft	SOFT, MEM, ST/STOP	SOFT（001）
REVERB LEVEL	030Rvb Lev	000— 127	030
CHORUSLEVEL	000Cho Lev	000— 127	000
MIDI RECEIVE	ALL Receive	001— 016、ALL	ALL
MIDI TRANSMIT	001 Transmit	001— 016	001

NOTE

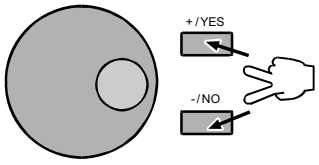
- If you don't press any button for 5 seconds after entering FUNCTION menu, it will quit this menu automatically.

Tune

This function sets the pitch of entire keyboard by steps of cents.



1. The LCD displays the tune value. Use **[+/YES]** / **[-/NO]** or **DIAL** to change the tune value. Its range is from -50 to 50 cents only by the right area of keyboard.



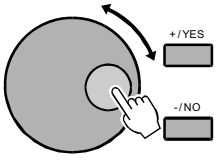
2. Pressing **[+/YES]** and **[-/NO]** together will set the TUNE value back to its default setting.

Beat

This function sets the beat value ranging from 0, 2-9.

1. The LCD displays the beat value.

2. Use **[+/YES]** / **[-/NO]** or **DIAL** to change the BEAT value.

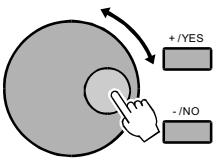


Split Point

This function sets the point that separate the entire keyboard to two section.

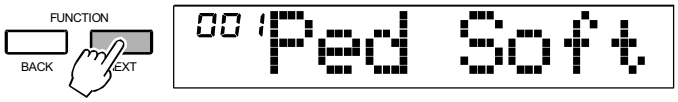
1. The LCD displays the split point value.

2. Use **[+/YES]** / **[-/NO]** or **DIAL** to change the split point. You may also use keyboard to change the split point by simply selecting the note you desired to be the point of separation. The part below the split point is the the CHORD area.

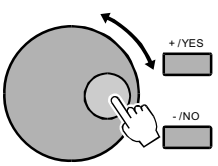


Pedal Soft

This function sets the Multifunctional pedal type to soft pedal, memory select pedal, start/stop pedal. The default Multifunctional pedal is soft pedal.



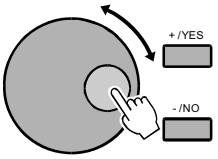
1. The LCD displays the type of pedal.



2. Use **[+/YES]** / **[-/NO]** or **DIAL** to change the pedal assign to Multifunctional pedal

Reverb Level

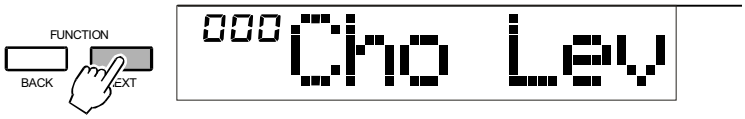
1. The LCD displays the reverb level. The level ranges from 0 to 127. The default value is floating and follows the voice.

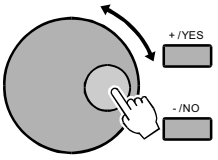


2. Use **[+/YES] / [-/NO]** or **DIAL** to change the reverb level.

Chorus Level

1. The LCD displays the chorus level. The level ranges from 0 to 127. The default value is floating and follows the voice.



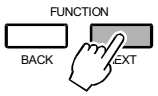


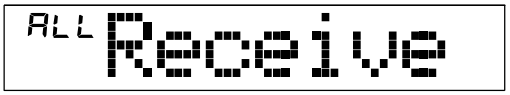
2. Use **[+/YES] / [-/NO]** or **DIAL** to change the chorus level.

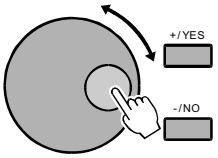
MIDI Setting

1 RECEIVE can be used to set the channel of MIDI IN. The default setting is "all ". Otherwise, channel 1~16 can also be selected separately.

Use [+/YES] / [-/NO] button or the DIAL to select the channel.

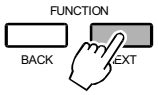






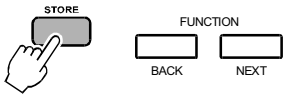
2 TRANSMIT can be used to set the channel of MIDI OUT. There are total of 16 channels for selection. Default setting is "001".

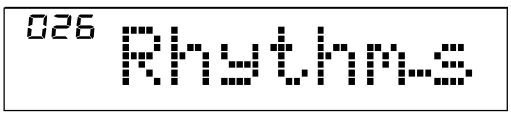
Use [+/YES] / [-/NO] button or the DIAL to select the channel.



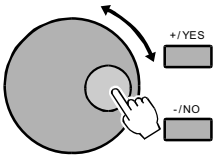
Mixer Menu

1 Press the **[MIXER]** button to enter the menu of mixer. The default option of the menu is "Rhythm_s", then the option you enter next time will be the same as last time you exit.



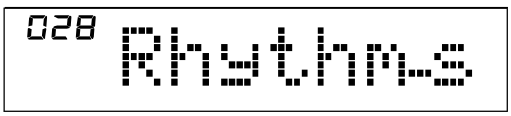


2 Press the **[MIXER]** button continuously to select the option you want, then use the **[+/YES] / [-/NO]** button or the **DIAL** to set the parameters.



NOTE

- If you don't press any button for 5 seconds after entering the MIXER menu, it will quit this menu automatically.



The option and the parameters in detail as belows:

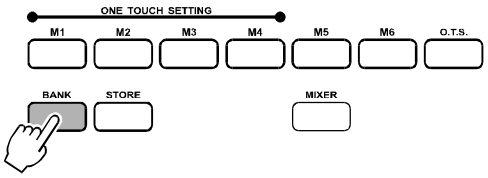
Option	LCD Display	Range	Deafult	Description
Rhythm_s Volume	026 Rhythm_s	000-031	026	percussion instrument 1
Rhythm_m Volume	026 Rhythm_m	000-031	026	percussion instrument 2
Bass Volume	026 Bass	000-031	026	bass foil
Chord 1 Volume	026 Chord1	000-031	026	symphonic melody 1
Chord 2 Volume	026 Chord2	000-031	026	symphonic melody 2
Chord 3 Volume	026 Chord3	000-031	026	symphonic melody 3
Phrase 1 Volume	026 Phrase1	000-031	026	intermezzo snippet 1
Phrase 2 Volume	026 Phrase2	000-031	026	intermezzo snippet 2
Voice R1 Volume	026Voice R1	000-031	026	single voice
Voice R2 Volume	010 Voice R2	000-031	020	dual voice
Voice L Volume	010 Voice L	000-031	012	lower voice
SD MIDI PLAY Volume	020 Sd play	000-031	020	

Memory

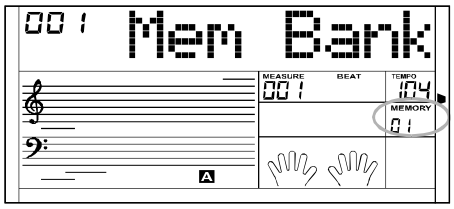
Memory feature can be used to preset 48 complete control-panel setups which could be recalled whenever needed.

Bank

There are 8 banks in total; each bank has 6 memories (M1~M6).



1. Press **[BANK]** button, the LCD displays "00x Mem Bank", with 00x showing the Bank that has been selected.



2. Use **[+/YES]** / **[-/NO]** button or **DIAL** to select the bank.

Memory Data

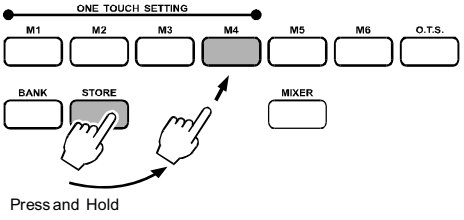
The data can be stored to the memory are as follows: Voice R1, Voice R2, Voice L, Style, Tempo, Function, Mixer, Accomp Volume and Octave.

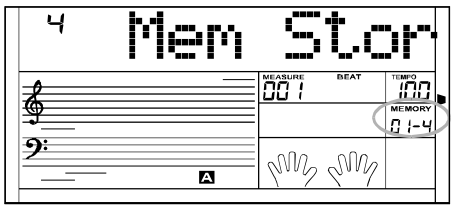
NOTE

- If the current memory data be changed, the corresponding memory flag on LCD will be erased.

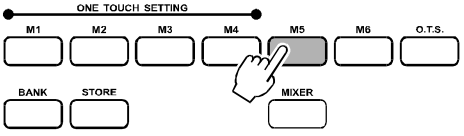
Store and Load

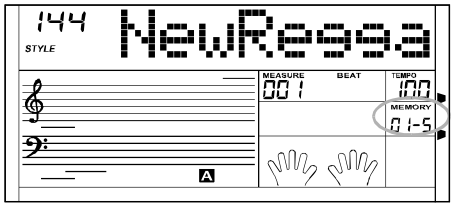
1. Press and hold the **[STORE]** button, then press the **[M1]** button (or **[M2] ~ [M6]**) , the current data will be stored in them.





2. Press the **[M1]** button (or **[M2 ~ [M6]**) to load the data from them and replace the current parameters.



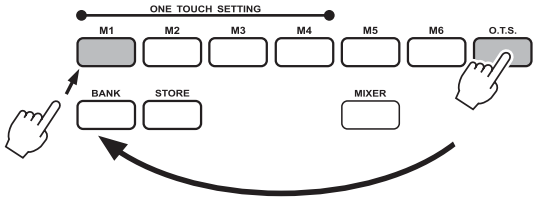


NOTE

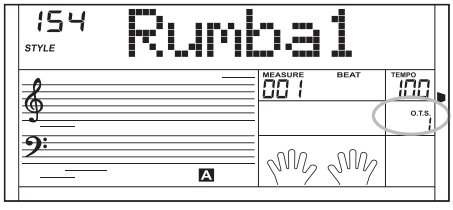
- Press **[STORE]** and **[M1]** together while power the piano , the memory data will be set as the default value.

One Touch Setting

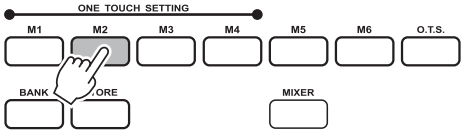
When One Touch Setting is switched on, you can instantly recall all auto accompaniment related settings including voices selection and digital effects simply with a single touch of a button.In this function, 4 types of parameters (M1~M4) will be loaded to match the current style.



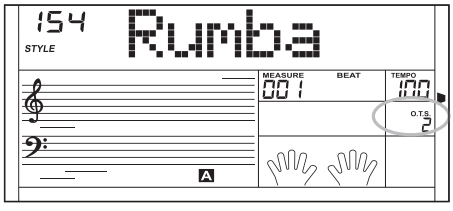
1 Press **[O.T.S.]** button to turn this mode on and the O.T.S. Flag lighten on the LCD.
Press any of the **[M1]** ~ **[M4]** button, it will load the relative type of parameter to be suited for the current style.
A.B.C. mode is automatically turned on during O.T.S. Mode.



2 Press any of the M1-M4 buttons, which is corresponded to your desired setting.



3 Press **[O.T.S.]** button again to turn off the O.T.S. Mode.



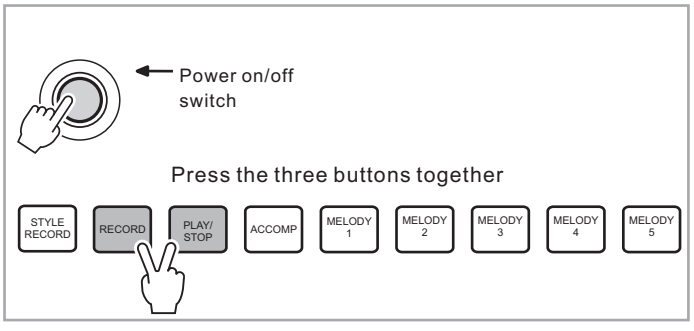
4 The default parameters stored in the O.T.S. including: Voice R1, Voice R2, Voice L, Octave , Voice R1 Volume, Voice R2 Volume, Chorus Level, Reverb Level.

Record

3 user songs can be recorded in the piano with 6 tracks (1 ACCOMP track, 5 MELODY tracks) in each song.

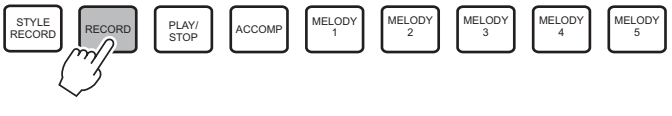
NOTE

- Hold down **[RECORD]** and **[PLAY/BACK]** button, then power on the piano, all recorded data will be erased.

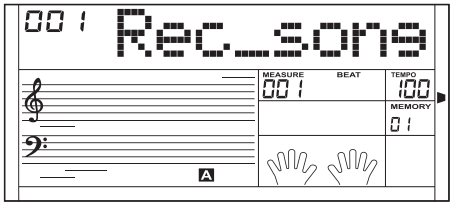


Record Song

Press the **[RECORD]** button for the first time to enter the user song selection mode. The LCD displays the current song name and number.

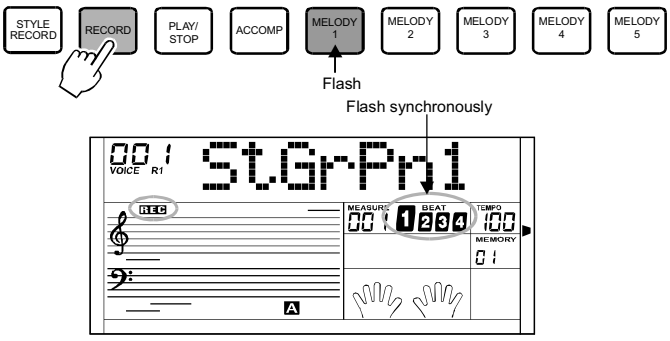


Use the **[+/YES]** or **[-/NO]** button and **DIA**l to select one you want to record.



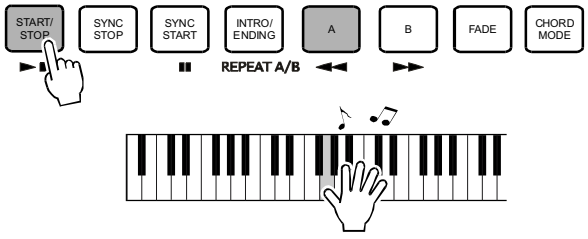
1 Waiting for recording:

Press the **[RECORD]** button for the second time to enter the record mode. The LCD lightens the REC flag, four beats flashes synchronously to indicate waiting for recording. At the same time an empty track will be selected to be recorded automatically and relative track flag flashes (the selection order is Melody1,Melody2...Melody5 and Accomp, the Melody1 will be selected while all tracks are't empty). Press the [ACCOMP], [MELODY 1] ...[MELODY 5] button to select the track you want to record.



2 Start recording:

When 4 beats on LCD flashes, press the **[START/STOP]** button or play the keyboard to start recording.



NOTE

- when entering record mode, the old data of the selected track will be overwritten.

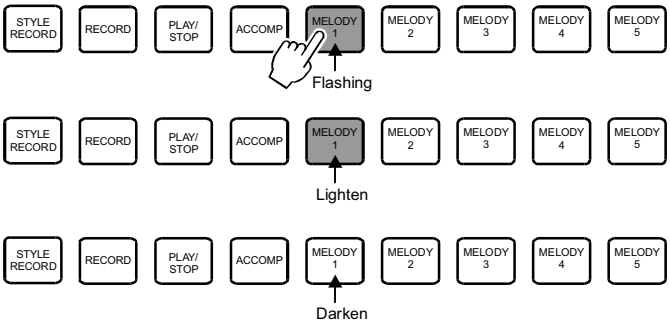
3 Choosing tracks

- There are 3 states of choosing tracks in the light buttons: Lighten, Flashing, Darken.

  When the light of button is flashing, it indicates the flashing track is the track chosen to be recorded.

  When the light of button is lightened, it indicates there is recorded material in this track for the selected song. Material on this track will be played simultaneously while recording for another track.

  When the light of button is darkened, it indicates there's no data in this track or there's data on this track but it's forbid to play the recorded material while recording.



- Press "Accomp" (or "Melody 1" to "Melody 5") to select the desired track. The corresponding track will be switched between the above three states.

NOTE

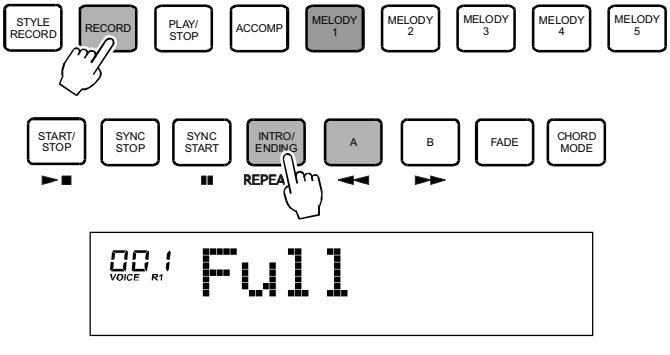
- Only 1 Melody track can be recorded at a time, whereas "Accomp" track can be recorded with a Melody track at the same time.
- Style can only be recorded in "Accomp".

4 Stop recording:

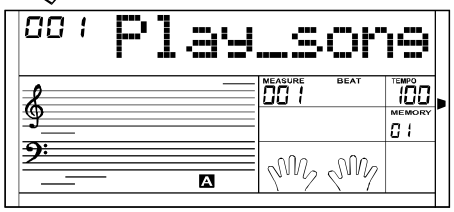
Press the **[RECORD]** button for the third time to stop recording.

If Accomp track is recording, press the **[INTRO/ENDING]** button to stop recording after the ending accompaniment is over.

If the capacity is full while recording, the recording will be stopped automatically with the FULL display on LCD.

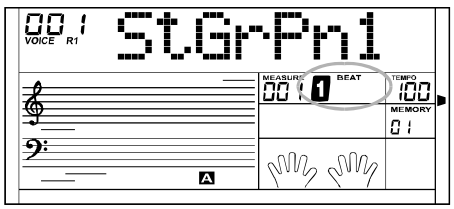


Playback Song



1. Press the **[PLAY/STOP]** button for the first time to enter the user song selected mode. The LCD displays the current song name and number.

2. Use the **[+/YES]** or [-/NO] button and **DIAL** to select one you want to play.



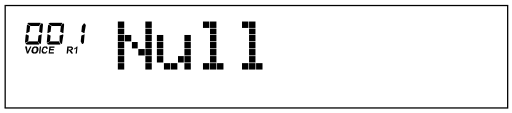
3. Press the **[PLAY/STOP]** button for the second time to playback the user song.

4. Press it for the third time or to stop playback. You also can press the **[START/STOP]** button to stop it.

5. You can use the **[ACCOMP]**, **[MELODY 1]** and **[MELODY 5]** button to turn on or off the relative track you want to play.

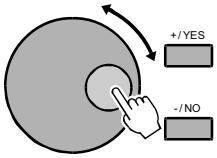
NOTE

- If there is no user song when you press **[PLAY/STOP]**, LCD will display "NULL" temporarily.



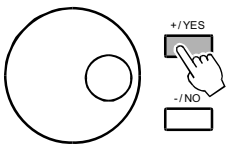
Delete Song

1. Press **[PLAY/STOP]** button to enter the user song selection mode.



2. Press **[+/YES]** / **[-/NO]** button to select the user song you want to delete.

3. Press **[RECORD]** button, LCD will display "DelUser".



4. Press **[+/YES]** button to delete the current user song When complete, LCD displays " OK! ", the cursor of the track will all darken simultaneously.

Style Record

Style record allows user to produce a new rhythm through recording and editing an built-in style. Be note that the built-in rhythm are programmed with CM7.3 styles can be recorded and the data will not be lost after the power is off.
You are also allowed to save the recorded style to SD card.

Before recording, you need to choose a rhythm as the original rhythm. This rhythm can be chosen from any of the existing 200 styles and you can also select your recorded style as original rhythm.

The style must be recorded by paragraph and by track. After finishing recording a track of a paragraph, you may proceed to record a different track of the same paragraph of a different paragraph.

Structure of a Rhythm:
Rhythm includes 8 paragraphs at most:

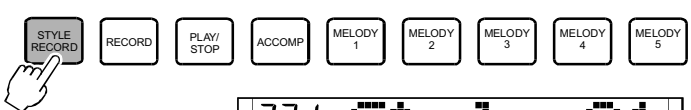
- Main _ A
- Main _ B
- Intro _ M (major)
- Intro _ m (minor)
- Fill _ A (insert in a)
- Fill _ B (insert in b)
- Ending _ M(major)
- Ending _ m(minor)

Each paragraph includes 8 tracks at most:

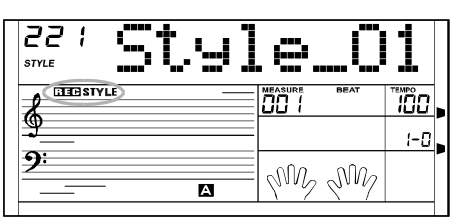
- Rhythm sub (rhythm subsidiary)
- Rhythm main
- Bass
- Chord 1 (symphonic 1)
- Chord 2 (symphonic 2)
- Chord 3 (symphonic 3)
- Phrase 1
- Phrase 2

Attention:
If you power off the piano during style recording, the recording data will be lost.

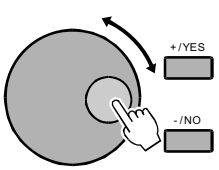
Start Style Record

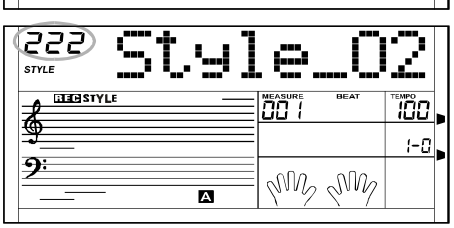


1. Press the **[STYLE RECORD]** button, LCD display the current user style.

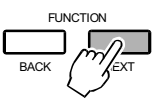


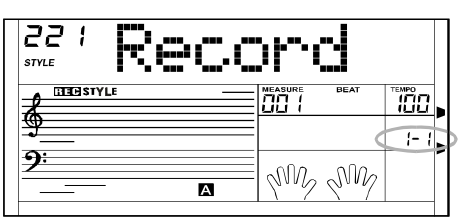
2. Use the **[+/YES]** or **[-/NO]** button and **DIAL** to select the others.



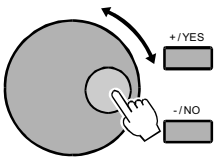


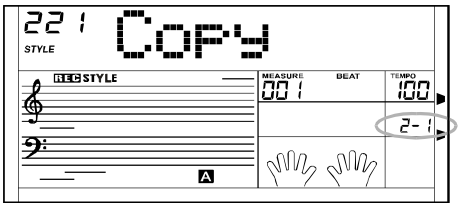
3. Then press the **[FUNCTION/NEXT]** button to enter next menu, at first LCD display the RECORD menu.

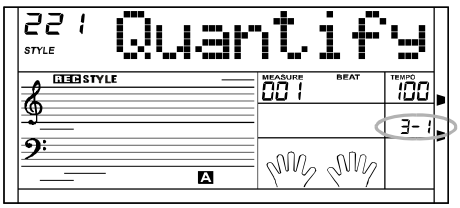




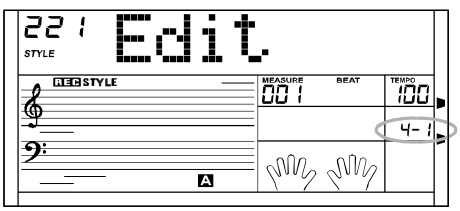
4 Use the **[+/YES]** or **[-/NO]** button and **DIAL** to select the others includes Record, Copy, Quantify, Edit and Delete.



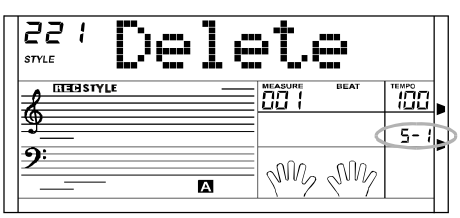




5 If the user style selected is empty, only Record and Copy can be selected.

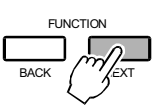


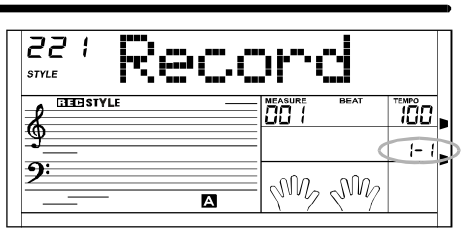
6 At any moment of style recording state, pressing **[STYLE RECORD]** button again will exit from the recording state. The data will not be saved.



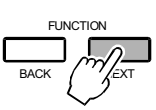
Record a new Style

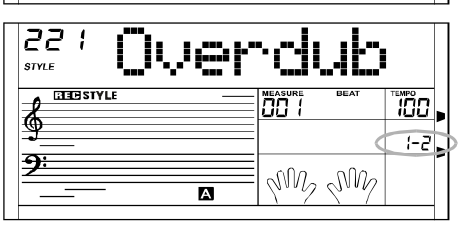
1 Select RECORD in style record menu level1.





2 Press **[FUNCTION / NEXT]** to enter record mode menu. LCD now displays "Overdub".

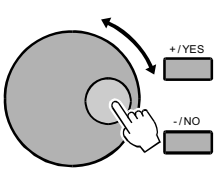


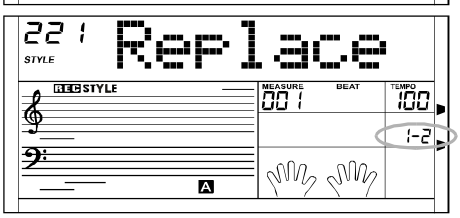


Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select a recording mode. 2 options for recording mode: overdub and replace.

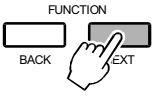
In Overdub mode, the newly recorded data will be added to the original style data.

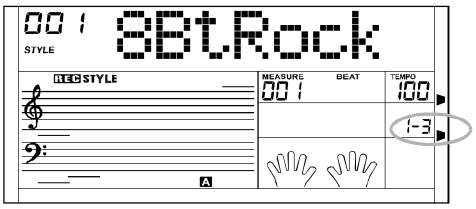
In Replace mode, the original style data will be overwritten with the newly recorded data.



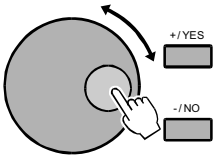


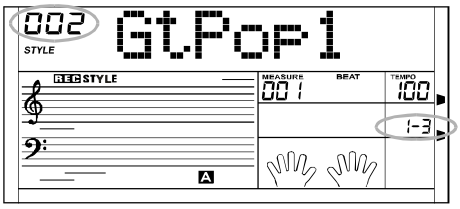
3 Press **[FUNCTION / NEXT]** to enter rhythm selection menu.



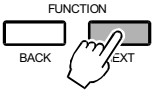


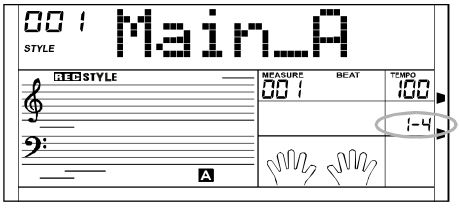
Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select a original rhythm.
Press **[FUNCTION / BACK]** to return previous menu.



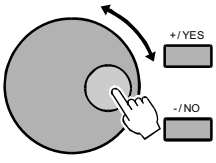


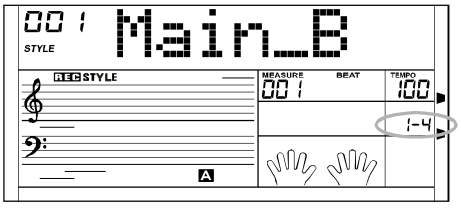
4 Press **[FUNCTION/NEXT]** button to enter the paragraph menu.





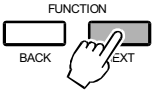
Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select the paragraph of rhythm. There are 8 paragraphs to be selected includes: Main _ A, Main _ B, Intro _ M, Intro _ m, Fill _ A, Fill _ B, Ending _ M, Ending _ m.

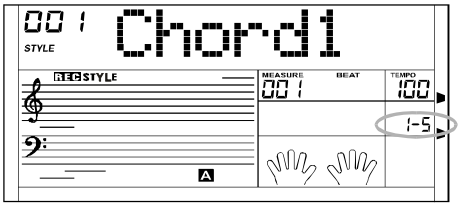




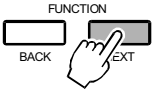
5 Press **[FUNCTION/NEXT]** button to enter the paragraph menu.

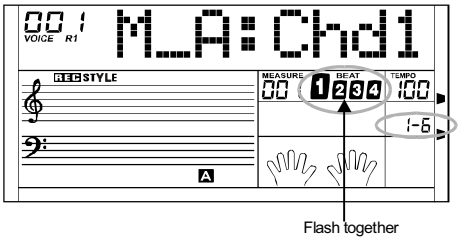
Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select the track: Rhythm sub, Rhythm main, bass, chord 1, chord 2, chord 3, phrase 1, phrase 2.



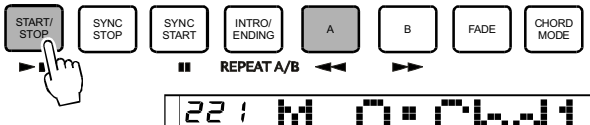


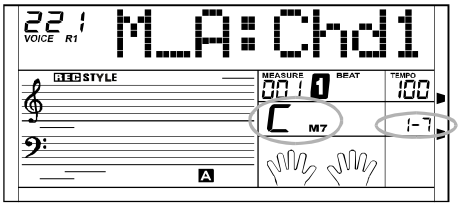
6 Press the **[FUNCTION / NEXT]** button to enter the record ready menu.
The style record is on the synchronized start mode, and the beat display will flash at the current tempo.
At that time you can use the **[+/YES]**, **[-/NO]** button or **DIAL** or direct select buttons to change the voice for the current track. If you've picked the drum track, you would only have drum kits for selection.
Press the **[FUNCTION / BACK]** button to return previous menu.





7 Press the **[START/STOP]** button to start recording.
The style will play with CM7 chord, the selected paragraph of the original rhythm begins to play in a loop way.
Play the keyboard to record, the recorded data in current loop would be replayed in next loop. Also you can delete the note being recorded in last loop by pressing the same note at same time in next loop within 1/8-quarter note around it played.

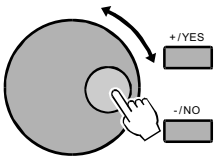


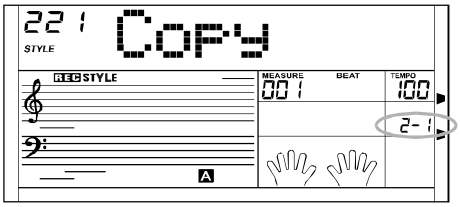


8 Press the **[START/STOP]** button again to stop recording and return to the synchronized start state.

9 Press the **[STYLE RECORD]** button to exit the current mode. You can also repeat the operation by pressing the **[FUNCTION / BACK]** button to return previous menu and select other options.

Copy a Style

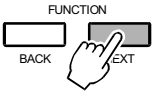


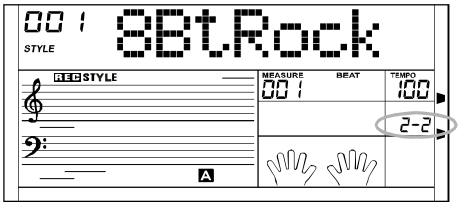


1. Select a user style slot to be used to store the new style.

   Press **[FUNCTION/NEXT]** button to enter choice menu.

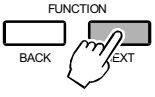
   Press **[+/YES], [-/NO]** button or rotate the **DIAL** to choose "Copy " .

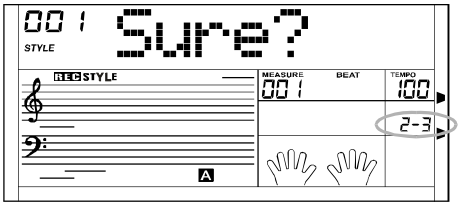




2. Press **[FUNCTION/NEXT]** button to enter rhythm selection menu.

   Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select a user style that needs to be copied.

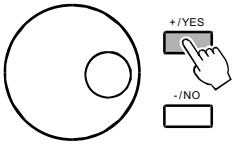


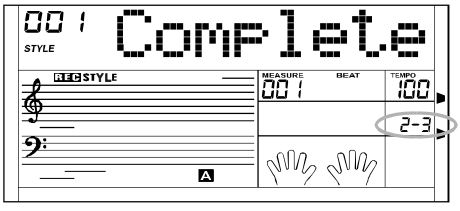


3. Press **[FUNCTION/NEXT]** button to enter next menu.

   LCD now displays: "Sure? " .

   Press **[+/YES]** to confirm, otherwise press **[-/NO]** to return to previous menu.





4. Press **[+/YES]** to finish copy.

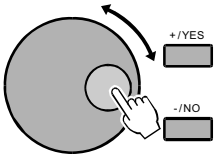
Quantify a Style

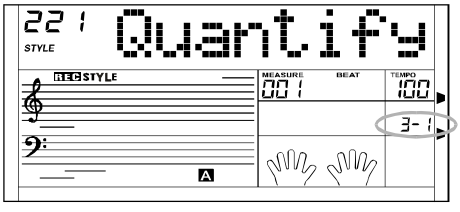
As timing of the recording may not be as accurate as it should be, Quantization helps users to correct the timing by aligning the notes to the exact beat. we'd suggest choosing the shortest note of the piece as the quantization precision for best result. If a lower quantization precision is chosen, for example choosing a quarter note as the precision when the shortest note is a 16th, the note with the short duration may be filtered.

1. Select the user style that needs to be quantified.

   Press **[FUNCTION/NEXT]** to enter choice menu.

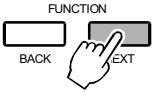
   Press **[+/YES], [-/NO]** button or rotate the **DIAL** to choose "Quantify" (if there is no data in user style, this menu can not be selected).

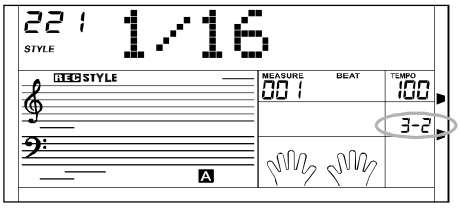




2. Press **[FUNCTION/NEXT]** to enter Quantization Precision menu.

   Press **[+/YES], [-/NO]** button or rotate the dial to select the accuracy for quantifying. Quantity accuracy includes 1/4 (quarter), 1/4 Tri (Quarter Triplet), 1/8 (Eighth), 1/8 Tri (Eighth Triplet), 1/16 (Sixteenth), 1/16 Tri (sixteenth Triplet), 1/32 (32nd), 1/32 Tri(32nd Triplet).



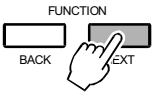


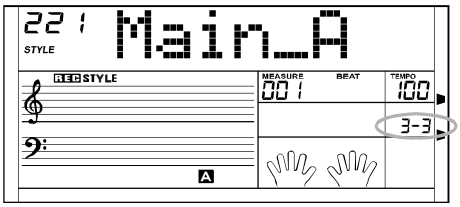
Quantization Precision value

quarter note	eighth note	sixteenth note	thirty-second note	quarter note triplet	eighth note triplet	sixteenth note triplet	thirty-second note triplet

3 Press **[FUNCTION/NEXT]** to enter the paragraph menu.

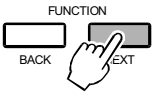
Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select the paragraph of rhythm: Main _ A, Main _ B, Intro _ M, Intro_m, Fill _ A, Fill _ B, Ending _ M, Ending _ m.

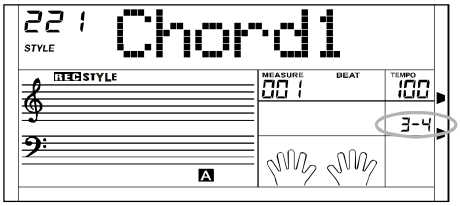




4 Press **[FUNCTION/NEXT]** to enter the Track menu.

Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select the track: Rhythm sub, Rhythm main, bass, chord 1,chord 2, chord 3, phrase 1, phrase 2.



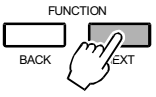


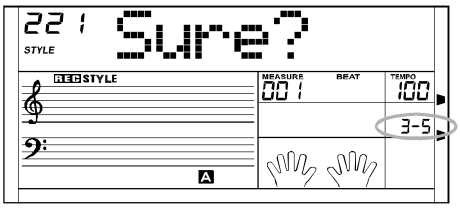
5 Press **[FUNCTION/NEXT]** to enter next menu.

LCD now displays "Sure?".

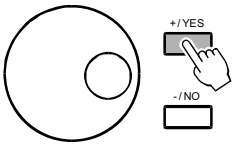
The original time and length of note will not be recovered after quantization.

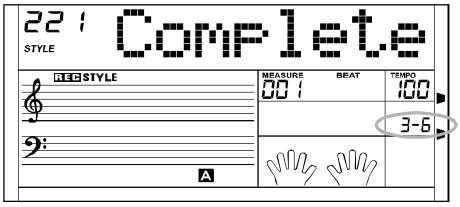
Press **[+/YES]** to confirm. Style will be quantified accordingly. Otherwise, press **[-/NO]** to return to previous menu.





6 LCD displays "Complete". The recorded style will be played with the desired accuracy.



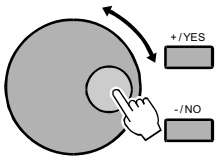


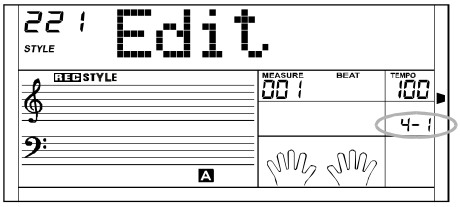
Edit a Style

Select the style that needs to be editted.

1 Press **[FUNCTION/NEXT]** button to enter choice menu.

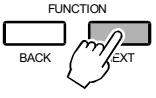
Press **[+/YES], [-/NO]** button or rotate the **DIAL** to choose "Edit".

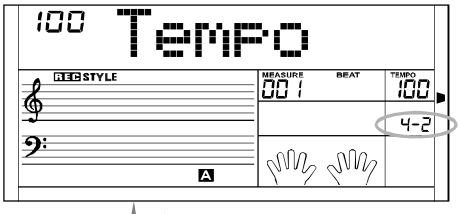




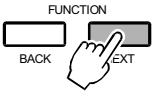
2 Press **[FUNCTION/NEXT]** button to enter tempo edit menu.

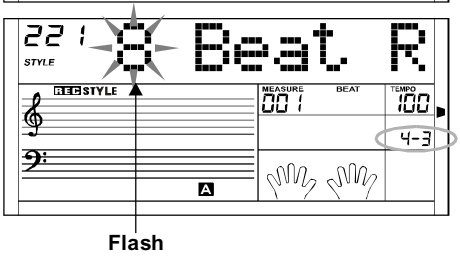
Press **[+/YES], [-/NO]** button or rotate the **DIAL** to modify tempo.





3 Press the **[FUNCTION/NEXT]** button to enter the rename menu(full name).
Use the keyboard to input the style whole name. It may include 26 letters and characters with the most length of 32 characters.
Press the **[FUNCTION/BACK]** button to return previous menu.
Please refer to page 42 for naming function.



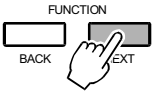


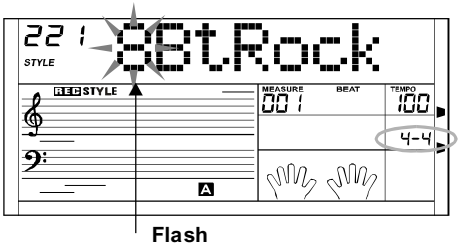
Style Record

4 Press **[FUNCTION/NEXT]** button to enter page of the abbreviation of style name.

Only 8 characters or digits can be inputted.

LCD now displays "Save? "

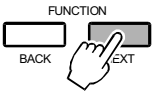


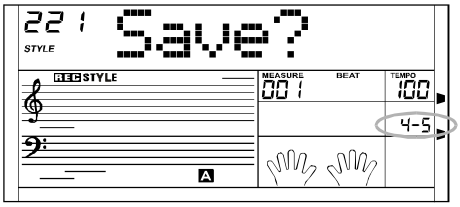


Flash

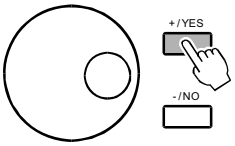
5 Press **[FUNCTION/NEXT]** button to enter next menu.

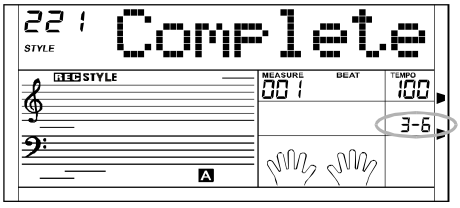
Press **[+/YES]** to confirm, otherwise press **[-/NO]** to return to previous menu.





6 Press **[+/YES]** to finish editing.



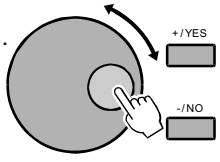


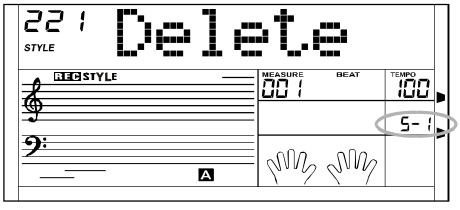
Delete a style

Select the user style that needs to be deleted.

1 Press **[FUNCTION/NEXT]** button to enter choice menu.

Press **[+/YES], [-/NO]** button or rotate the **DIAL** to choose "Delete".

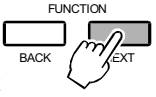


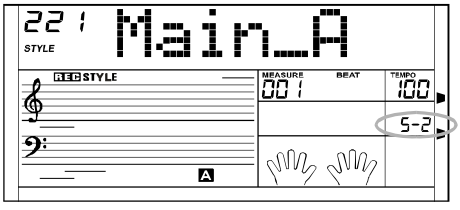


2 Press **[FUNCTION/NEXT]** button to enter Paragraph Selection page.

Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select the paragraph that needs to be deleted.

If All is selected, the menu will jump to step 4.

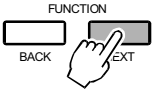


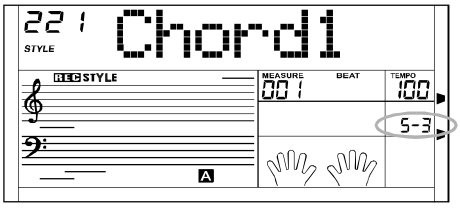


3 Press **[FUNCTION/NEXT]** button to enter Track Selection page.

Press **[+/YES], [-/NO]** button or rotate the **DIAL** to select the track that needs to be deleted.

If all is selected, the rhythm will be deleted.

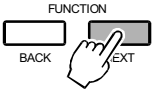


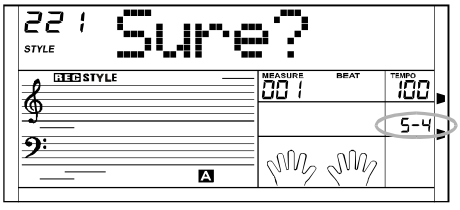


4 Press **[FUNCTION/NEXT]** button to enter next menu.

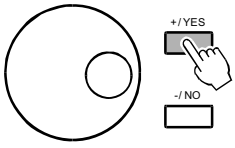
LCD now displays "Sure?".

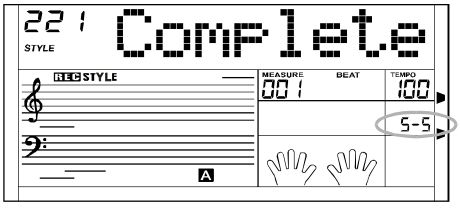
Press **[+/YES]** to confirm. Press **[-/NO]** to return to previous menu.





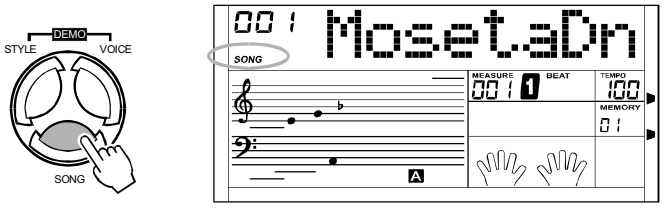
5 Press **[+/YES]** to finish deleting.





Song

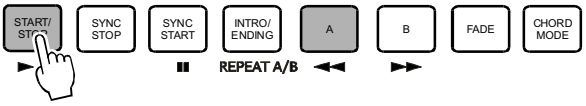
There are 100 songs in total, includes 57 songs with left and right melody parts, 33 style songs and 10 piano songs.



1 START/STOP the song:

Press **[SONG]** button to enter the song mode, the song flag on LCD is lightened. It will play all songs in circle.

Press **[START/STOP]** button to stop playing the song, but it will not quit the song mode.

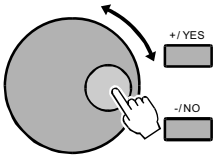


2 Loop:

The 2nd time you start playing the song by pressing **[START/STOP]** button, it will play current song repeatedly.

3 Select the song:

Use **[+/YES]** / **[-/NO]** button or **DIAL** to select the song you want. If select the new, LCD will displays its whole name at first with roll and then stays in shortened form.

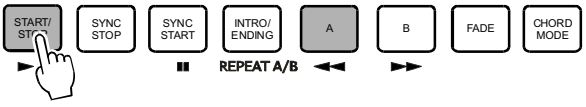


4 Song control:

Introductory beat:

Before the song start playing, it has the introductory beat, the measure starts from negative value.

It begins to play the song when the measure goes to 1.

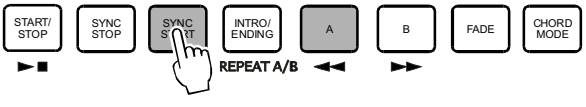


REW, FF and PAUSE:

When the song is playing, hold the **[►►]** button to fast forward the song.

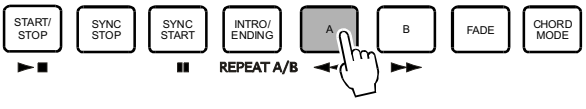
Hold the **[◄◄]** to rewind the song (base on the measure).

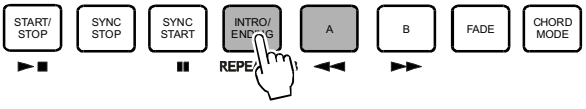
Press the **[▮▮]** to pause the playing song.



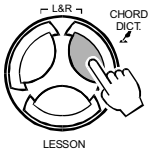
Song repeat

When playing the song, press **[REPEAT A/B]** button to set the location of loop begin and loop end to the current song. Press the **[REPEAT A/B]** to set the loop begin, and press the **[REPEAT A/B]** twice to set the loop end. When in loop status, press **[REPEAT A/B]** again to quit loop playing status.





5 When the song is stopped, press **[STYLE]**, **[VOICE]** and **[DEMO]** button will exit the song mode, or hold the **[CHORD DICTIONARY]** button to enter Chord Dictionary mode.



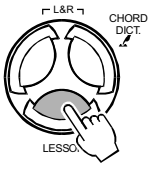
NOTE

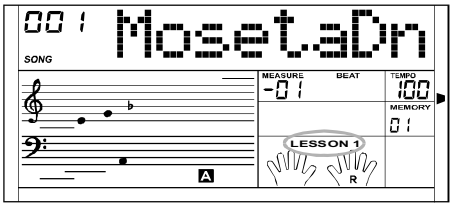
- The user song do not have the function of REW, FF and PAUSE.

Lesson Mode

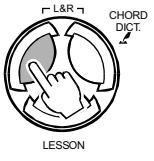
There are 2 different ways to practice the songs by the time value training and note correction training. And the piano offers the GRADE function to help you better know your progress.

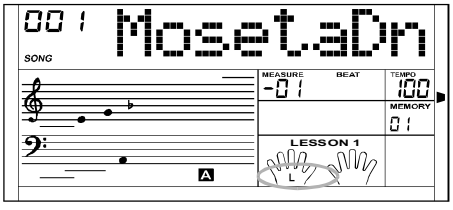
In song mode (Song is not playing), press **[LESSON]** button to enter lesson mode.





There are 3 levels to score the performance of your playing. You can use **[R]** and **[L]** button to select which hand to practice. If neither hand is selected, the piano will choose the right hand automatically.





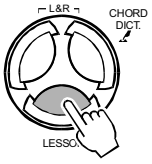
Song

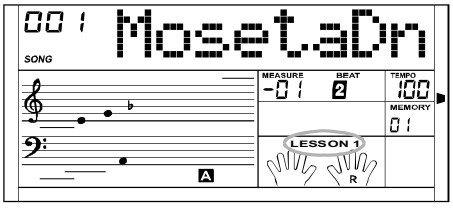
NOTE

- According to the type of the song, the content of your practice by left hand is not the same. If you choose chord song, the left hand practices the chord, otherwise, left hand practise the melody.
  1-42, 57 song can permission practice the left hand and right hand. 43-56 , 58-100 song only used to right hand practice.

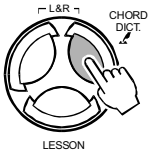
- When the song is playing, the staff displayed on the LCD indicate the melody and chord position, LCD shows the last note played by RIGHT track, and it will be convenient for you to practice .
  Because the melody track note span of song may exceed the range that staff can reveal, staff high notes district might have +12, +24 display at this moment, show whom staff reveal high one octave or two octave of notes at present.
  The display of this +12, +24 chord to style song is invalid, Chord of style song reveal first octave in staff bass all the time when revealing +12/+24, study chord part time according to chord bond potential prompt play the musical instruments or play the musical instruments transposition chord all validity.

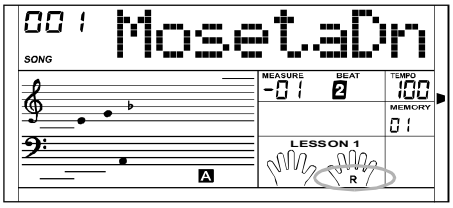
Lesson 1-Practice timing





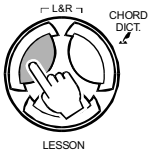
Press **[LESSON]** button to enter the lesson mode, the lesson 1 flag is lightened on LCD.
In LESSON 1 mode, the piano only grade the time value of the playing, accuracy of note playing will not be accounted for.

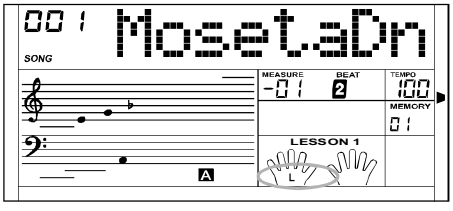




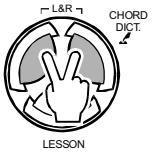
1. Press **[START/STOP]** to start to practise.

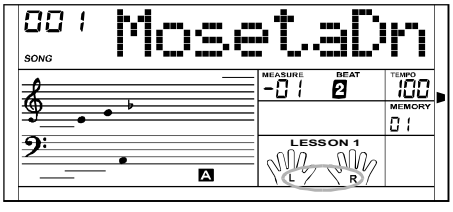
2. If **[R]** is selected; it will mute the melody of right hand and you will have to follow the timing of the right hand. As long as the timing is correct, the melody will sound.





If **[L]** is selected ; it will mute the changing chord and melody by left hand. You will have to follow timing of the left hand. As long as the timing is correct, the chord / melody will sound.

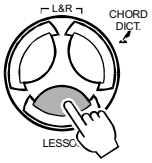


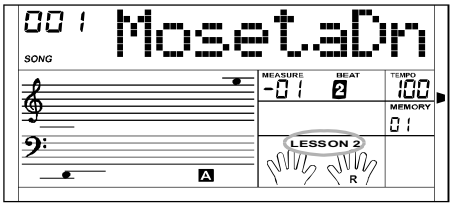


If **[L]** and **[R]** are selected, the melody on left and right hand will be muted. You will have to follow timing on both left and right hand.

3. Once completed, the result of evaluation will be voiced.

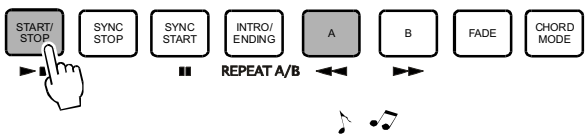
Lesson 2-Practice a note accuracy





Press **[LESSON]** button again to enter the lesson 2 mode.

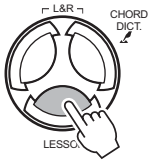
In LESSON 2 mode, the piano only grade your practice by the note, accuracy of time value will not be considered as the song will only continue to the next when the correct note is played.
Only when you play the correct note, the song will continue to the next note.

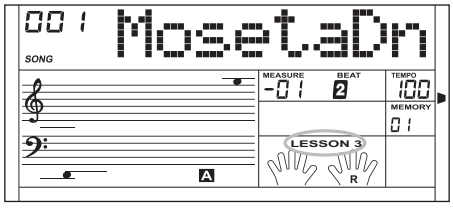


Press **[START/STOP]** button to start to practise.

Lesson 3

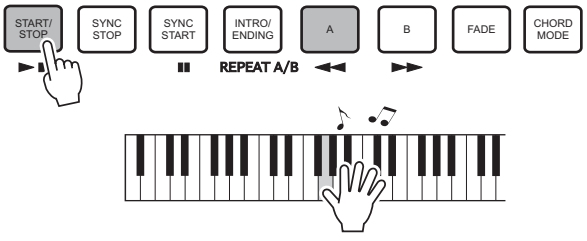
Press **[LESSON]** button in LESSON 2 to enter the LESSON 3 mode.





In LESSON 3 mode, it will score your practice by the correction of the time value and note.

Press **[START/STOP]** button to start to practise.

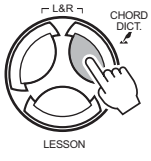


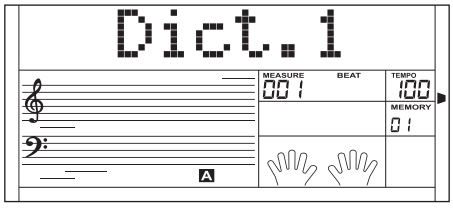
Chord Dictionary

If you know the name of a chord but don't know how to play it, you can use the Chord Dictionary function. It is ideal when you know the name of a certain chord and want to quickly learn how to play it.

1 DICT 1 (CHORD LEARNING MODE)

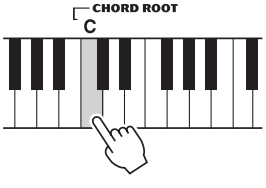
Press and hold the **[CHORD DICT./R]** button for longer than 2 seconds to enter DICT 1 mode.
In this mode, the keys above C4 are used to assign the Chord Type, the keys above C6 are used to assign the Chord Root.

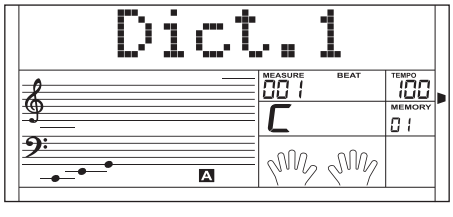




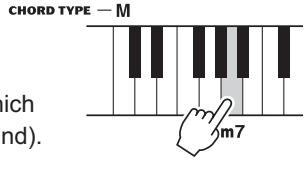
When the Chord Type and Chord Root is confirmed, The LCD will display the Chord and its keyboard position.

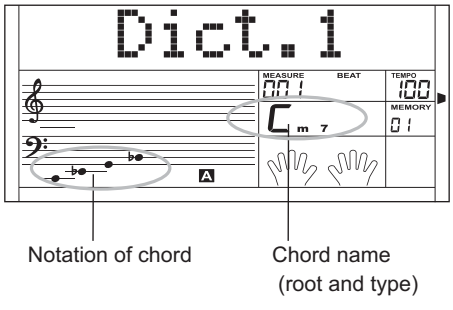
For example, if we want to play a Cm7 Chord. Press the C key in the section of the keyboard labeled CHORDROOT. (The note does not note sound) the root note you set will be shown on the display.





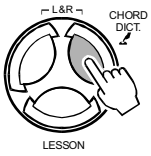
Press the m7 key in the section of the keyboard which has labeled CHORD TYPE (The note does not sound). The notes you should pay for the specified chord (root not and chord type) are shown in the display as the notation and also in the keyboard diagram.

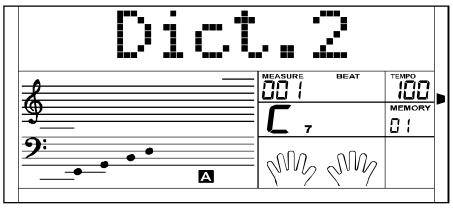




2 DICT 2 (CHORD TEST MODE)

Press **[R]** button again to enter DICT 2 mode. The chord area on the LCD will display a random chord , while the keyboard position doesn't display anything on LCD. When you play the correct chord within 3 seconds, the next chord (random) will be displayed on LCD to wait for the correct chord playing, if not, LCD displays the corresponding keyboard position automatically.





Press **[R]** button for the third time to turn off chord dictionary.

24 chords will be displayed in the dictionary mode as follows:

Chord Root:

Note	Chord Root	Note	Chord Root
C6	C	F#6	F#/Gb
C#6	C#/Db	G6	G
D6	D	Ab6	Ab/G#
Eb6	Eb/D#	A6	A
E6	E	Bb6	Bb/A#
F6	F	B6	B

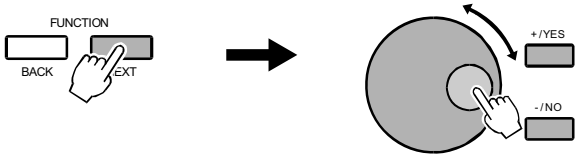
Chord Type:

Note	Chord Type	Note	Chord Type
C4	M	C5	7(b9)
C#4	M(9)	C#5	7(9)
D4	6	D5	7(#9)
Eb4	mM7	Eb5	7(b13)
E4	M7	E5	7(13)
F4	m	F5	7(#11)
F#4	m(9)	F#5	dim7
G4	m6	G5	dim
Ab4	m7(9)	Ab5	7aug
A4	m7	A5	aug
Bb4	m7b5	Bb5	7sus4
B4	7	B5	sus4

Pedal

Foot Switch

The piano can assign the Multifunctional pedal in function menu. (See FUNCTION)

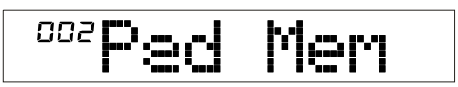


1 PEDAL SOFT

If pedal assign is set as "pedal soft", it will activate the soft effect when you step the Multifunctional pedal.

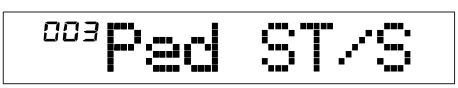
2 PEDAL MEMORY SELECT

If pedal assign is set as "pedal mem", it will load the next memory parameter when you step the Multifunctional pedal.



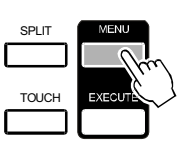
3 PEDAL START/STOP

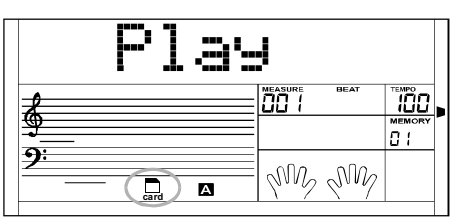
If pedal assign is set as "pedal ST/S", the Multifunctional pedal will have the same function as **[START/STOP]** button.



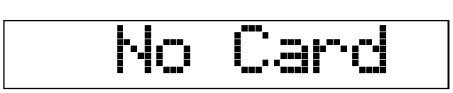
SD Function

There is a standard SD external interface which supports SD cards with capacity of 16M ~ 2G. It is compatible with the FAT 16/32 file system format.
Press the **[MENU]** button to enter the SD CARD sub menu which includes: PLAY, LOAD, SAVE、DELETE and FORMAT.

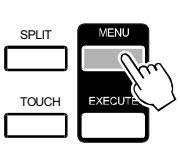


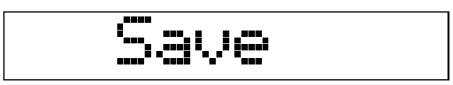


If there is no card, it will display "No Card",then you can press **[MENU]** to exit. Otherwise, "Wait... !" will disappear temporarily for 3 seconds then it will show "Play"on the LCD.



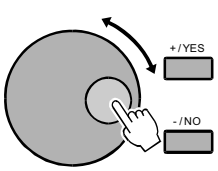
1 You can also press any **DIRECT SELECT BUTTON/ [VOICE] / [STYLE] / [SONG] / [DEMO] / [DUAL] / [SPLIT] / [PIANO]** to exit SD CARD menu.





2 In midi play mode,you can press mixer button then press **[+/YES]**,**[-/NO]** button to adjust the volume to play.

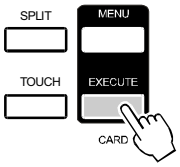
3 In SD card mode, you could press **[MENU]**button repeatedly to exit sd menu step by step,you also could press and hold **[MENU]** button for 2 seconds to exit directly.

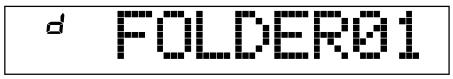


SD Function

In the SD mode, it won't respond to the other function. Use the **[+/YES]**, **[-/NO]** button and **DIAL** to choose the SD menu you want.

Press the **[EXECUTE]** button to take a step forward.
Press the **[MENU]** button to take a step back.

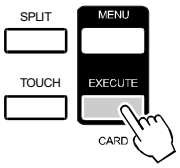




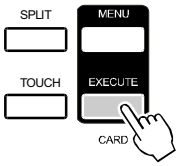
Please refer to page 42 for naming function.

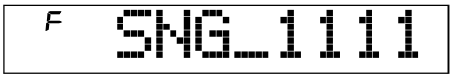
Play

1. Select the menu "Play" and press the **[EXECUTE]** button, LCD will display the MIDI files and directories in the root of the SD card.

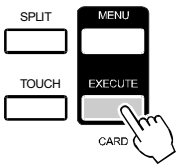


If the MIDI file in SD could be identified and selected, LCD will display file name and the "F" sign.

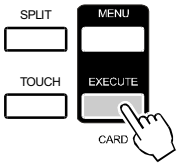




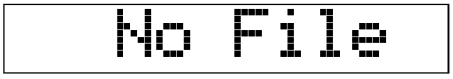
If there is no midi file identified inside the current directory, LCD will display the sub-directory name and the "d" sign. Press the **[EXECUTE]** button to enter the current sub-directory, then new MIDI files or subdirectories of the directory will be displayed.



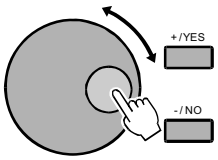
If there is neither MIDI file nor subdirectory in the current directory, LCD will display " . . "and the "d" sign, you can press the **[EXECUTE]** button to exit the directory.



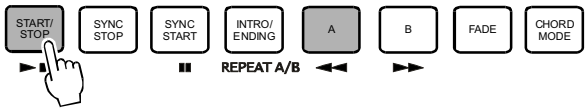
If there is neither MIDI file nor subdirectory in the root , LCD will display "No file".



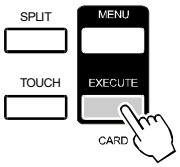
2. Use the **[+/YES]**, **[-/NO]** button and **DIAL** to select the MIDI file.



Then press the **[START/STOP]** button to play it repeatedly.



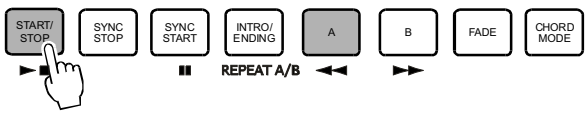
Press the **[EXECUTE]** button to play all files in the current directory circularly.



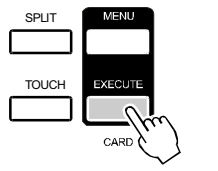
NOTE

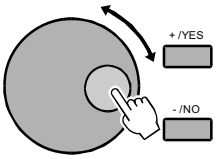
- When the file is playing, you can select new file in the current directory or other subdirectory.
- When the file is playing, you can adjust the tempo with the **[TEMPO +]**, **[TEMPO -]** button, press them synchronously, the current tempo will reset the default one of the file.

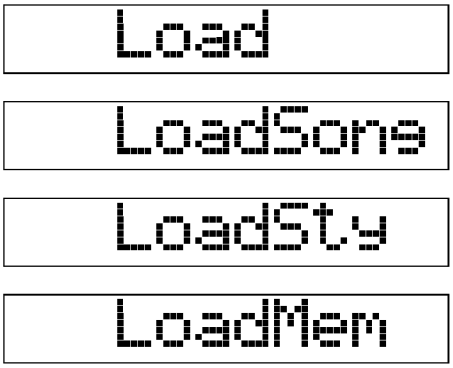
3. When the file is playing, press the **[START/STOP]** button to stop playing. Also you can press the **[MENU]** button to return PLAY menu, or press the **[MENU]** button 2 seconds to exit the SD mode, then stop to play the file.



Load



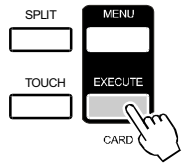


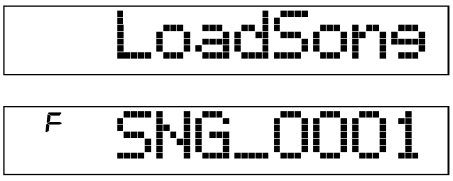


Select the menu "Load" and press the **[EXECUTE]** button, the Load menu are displayed on the LCD, it includes "Load Song", "LoadSty" and "LoadMem". Use the **[+/YES]**,**[-/NO]** buttonand **DIAL** to select one.

❶Load Song

Select the menu "LoadSong" and press the **[EXECUTE]** button, the user songs you saved or directory in the root of SD are displayed on the LCD, the main name of the file includes 8 characters, the postfix name is MID. You can select songs with **DIAL** or the **[+/YES]** & the **[-/NO]** button.





Press the **[EXECUTE]** button to confirm the desired file, the empty user song slot will be displayed on the LCD, you can select them with dial or the **[+/YES]** and the **[-/NO]** button.

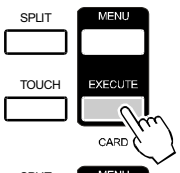
Press the **[EXECUTE]** button to go to next step, you can select the storage directory with **DIAL** or the **[+/YES]** , **[-/NO]** button.

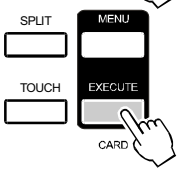
Press the **[EXECUTE]** button to enter next step, LCD will display the naming state, you can play the keyboard to input the file name.

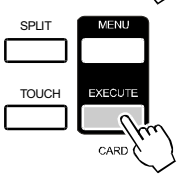
Press the **[EXECUTE]** button to enter the enquiry page, "Sure?" will be displayed on the LCD.

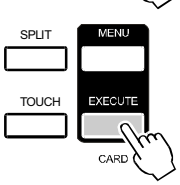
You just need to press the **[EXECUTE]** button to save the file.

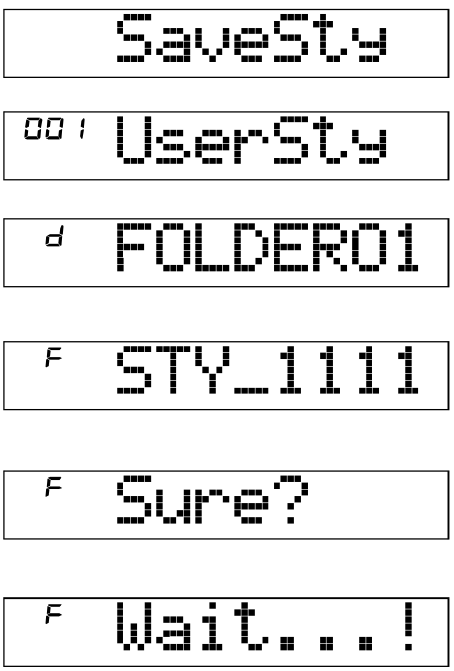
❷Save Style











Select the menu "SaveSty" and press the **[EXECUTE]** button, the user style recorded is displayed on the LCD. Select a user style be saved with **DIAL** or the **[+/YES]**, **[-/NO]** button.

Press the **[EXECUTE]** button to go to next step. Select the storage directory with **DIAL** or the **[+/YES]** ,**[-/NO]** button.

Press the **[EXECUTE]** button to enter next step, LCD will display the naming state, you can play the keyboard to input the filename.

Press the **[EXECUTE]** button to enter the enquiry page, "Sure?" will be displayed on the LCD.

You just need to press the [EXECUTE] button to save the file.

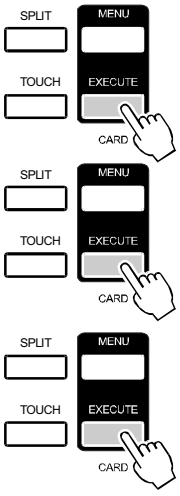
❸ Save Memory

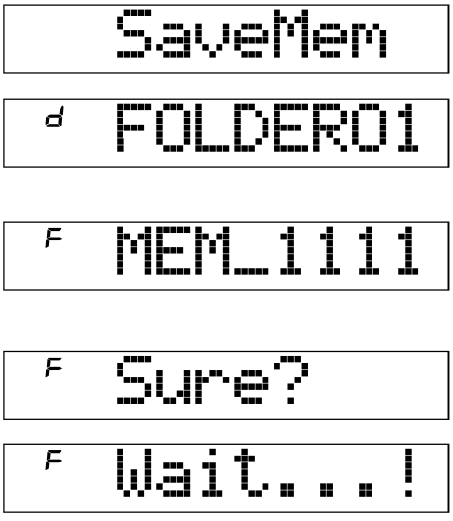
Select the menu "SaveMem" and press the **[EXECUTE]** button, you can select the storage directory with **DIAL** or the **[+/YES]** ,**[-/NO]** button.

Press the **[EXECUTE]** button to enter next step, LCD will display the naming state, you can play the keyboard to input the filename.

Press the **[EXECUTE]** button to enter the enquiry page, "Sure?" will be displayed on the LCD.

You just need to press the **[EXECUTE]** button to save all the datas includes 48 memorizers.





Delete

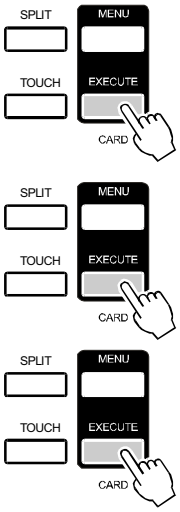
Select the menu "Delete" and press the **[EXECUTE]** button, all files includes MIDI files, user songs and user styles or all directories in the root of SD are displayed on the LCD. You can select the file that need to be deleted with **DIAL** or the **[+/YES]** & the **[-/NO]** button.

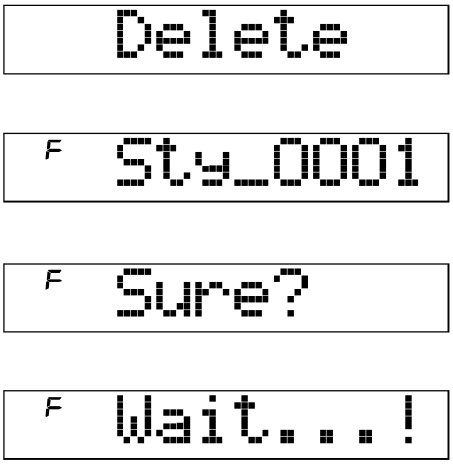
Press the **[EXECUTE]** button, "Sure?" will be displayed on the LCD.

You just need to press the **[EXECUTE]** button to delete the file.

NOTE

- The directorids is unable to delete.

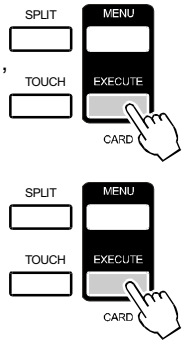


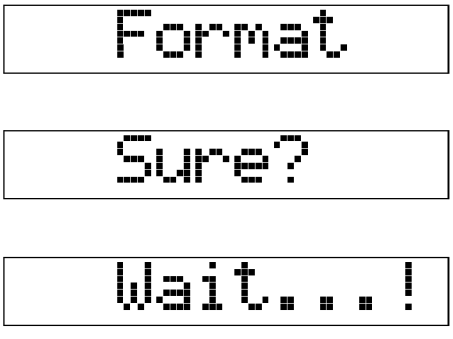


Format

Select the menu "Format" and press the **[EXECUTE]** button, "Sure?" will be displayed on the LCD.

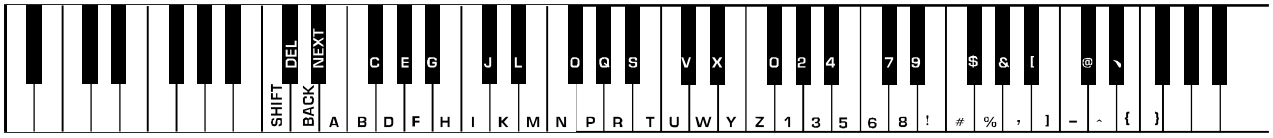
Press the **[EXECUTE]** button to format it, the card will be formatted.





SD Function

The file name includes 1-8 characters which can be inputted with the keyboard.
Keyboard & ASCII Character Relative Table is as follows:



Explanation:

[SHIFT]:
26 letters will be displayed with capital letter by pressing the keyboard in letter area directly.

[DELETE]:
To erase the character which cursor flashes.

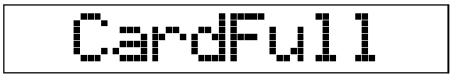
[BACK]:
move the current cursor to the left.

[NEXT]:
move the current cursor to the right.

NOTE

- While in the SD mode, press the **[SHIFT]** key hold on, it won't respond to it.
- If the name input has already existed, LCD will display "SameName" temporarily, then exit the SD mode to return the previous state.

- If there's no enough space in the card after name input, LCD will display "CardFull" temporarily, then exit the SD mode to return the previous state.



MIDI Function

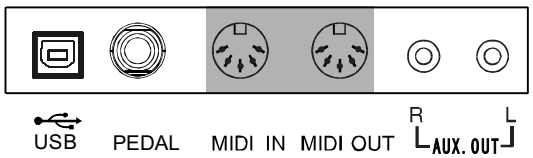
What is MIDI

1. MIDI stands for "Musical Instrument Digital Interface", that is the standard interface between a PC and other electronic instrument(s).

2. USB connection can be used for midi data transference with computer or other USB host devices that support USB audio device with an USB cable.

3. The piano can be connected to the PC or other USB host device with an USB interface.

4. Use the piano as a tone generator, the data (MIDI) recorded on the PC or other USB host devices can be played on the piano.



NOTE

- While a recording is playing back and a style is playing, you can not use the MIDI IN function, or the song you are playing will have error occurs for the same channel.

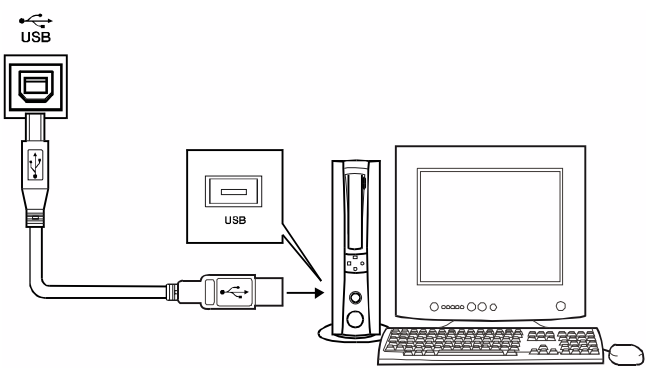
USB Connection

1 System Requirements

- CPU: 300 MHz or higher, Pentium 2
- Memory: 64MB or more
- Hard Disk: at least 2 MB of free base
- OS: WINDOWS 2000/XP

2 The Method of Connection

Connect a standard USB cable between the rear-panel of the USB jack of the instrument and the USB jack on your computer (USB cable sold separately).



3 USB Precautions

Please observe the following precautions when connecting the instrument to a computer via a USB cable. Failure to do so can cause the instrument and/or the computer to hang up(freeze), possibly causing corruption or losing the data.
If the instrument or computer does hang up, turn the power of both devices off and then turn it on again after a few seconds.

NOTE

- Activate the computer from a sleep/suspended/ standby mode before connecting the USB cable.
- Connect the USB cable to the instrument and a computer before turning the power of the instrument on.

MIDI Connection

❶Connection rule

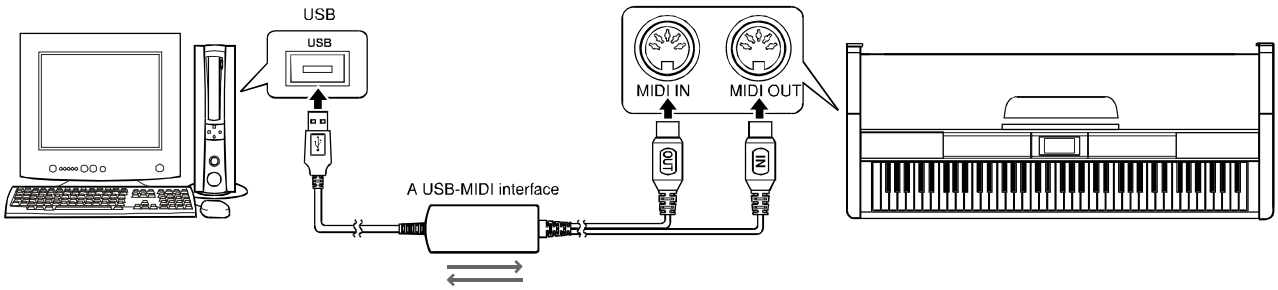
In midi connection, the equipment which control another one is called "Host equipment", while another is called "Affiliated equipment".

The host equipment's MIDI OUT connects with affiliated equipment's MIDI IN

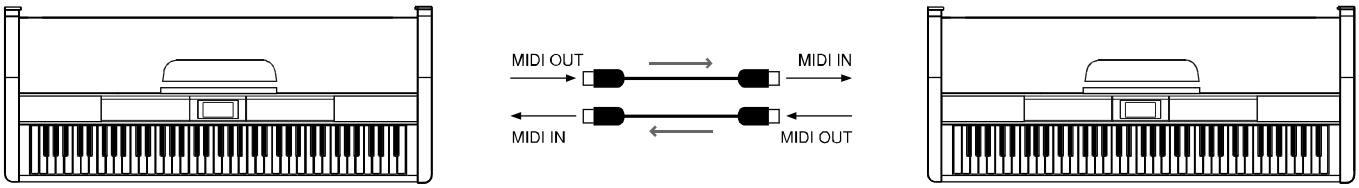
Note that MIDI OUT cannot be connected with MIDI IN on the same equipment.

❷The method of connection

Connect the MIDI interface with PC.



Connect the MIDI interface with the other MIDI interface.



MIDI Application

The piano can control other equipments or electronic instruments.

Some equipments can be used to control the piano.

PC recorded data (MIDI) can be played on the piano.

Specifications

LCD display	Multi-functional LCD

Weight	59kg
Accessories	Warranty Certificate, Manual

* All specifications and appearances are subject to change without notice.

Trouble Shooting

Problem	Possible Cause and Solution
No matter the instrument is turned on or off, a popping sound will be temporarily produced.	This is normal and indicates that the instrument is receiving electrical power.
There is no sound even when the keyboard is played or when a song or style is being played.	Check if any cable or headphone is connected to the PHONES jack on the rear panel. When a set of headphonesis plugged into this jack, no sound is output.
